

(c) An existing storage that is located within 350 feet of a property line or public road right-of-way cannot be expanded toward that property line or public road right-of-way.

(d) A new waste storage facility may not be located within 350 feet of any property line, or within 350 feet of the nearest point of any public road right-of-way, unless the waste storage facility is a single new waste storage facility constructed no closer to the relevant property line or public road than a waste storage facility that existed on the same tax parcel prior to January 2014, provided that the new structure is no larger than the existing facility and is located within 50 feet of the existing facility. The 350 foot setback does not apply to waste storage completely contained under a building used to house livestock. However, all Jefferson County Zoning Ordinance setbacks for buildings are applicable.

(ee) The permittee certifies in writing that all other local, city, County, State or Federally required permits shall be obtained from the appropriate authorities. The department may require proof of any permit known to be needed prior to issuing an Animal Waste Storage Facility Permit or Animal Waste Storage Facility Closure Permit.

(fd) Any change to an approved Animal Waste Storage Facility Plan or closure design shall be approved in writing by the Jefferson County Land and Water Conservation Department. Written approval by the Department shall occur only after the DATCP engineer or designee, registered professional engineer, or state, federal, or local agency staff person, having the appropriate engineering certification, has reviewed and approved the proposed modifications.

(ge) The permittee shall give no less than 3 working days advance notice to the Jefferson County Land and Water Conservation Department before starting any construction activity authorized by the permit.

(hf) Activities authorized by permit shall be completed within 2 years from the date of issuance after which time such permit shall expire.

(ig) The permittee shall certify in writing, by a professional engineer or a person with appropriate engineering job approval according to NRCS standards, that the animal waste storage was installed or closed as planned. A copy of the signed certification sheet shall be given to the Land and Water Conservation Department within 1 month of completion of installation or closure. Any approved changes made to the Animal Waste Storage Facility Plan or closure design shall be specified in the certification. Land and Water Conservation Department personnel may conduct site inspections during and following construction to determine that the facility was installed or closed as planned and designed.

Our 2013/2014 Tree Sale has concluded. Because of another long, cold winter we weren't able to pick up the trees until May 5th. We had distribution on May 7th and 8th. Since we didn't pre-sell all of trees we sold them outright to the many customers that happened to stop. We also sold additional bundles to the customers picking up their orders. Whatever trees didn't sell were donated to the County Parks Department.
