Agricultural Tourism Activity means an agriculturally related educational or recreational activity that takes place on a farm, ranch, grove, or other place where farm animals or farmed fish are raised, or where agricultural, horticultural, or silvicultural crops are grown, or there is direct marketing of such crops incorporated into finished products and made available for retail purposes to the public, , and that allows members of the general public, to purchase, tour, explore, observe, learn about, participate in, or be entertained by an aspect of agricultural production, harvesting, or husbandry that occurs on the farm, ranch, grove, or other place. Agricultural tourism is intended to support agricultural economic development efforts in rural areas of Jefferson County and promote the diversification of farm-related activities by offering members of the public the opportunity to experience agricultural production at locations including local working farms and establishments which sell products from local working farms.

**ZONING ORDINANCE, JEFFERSON COUNTY  
STATE OF WISCONSIN**

**11.01 INTRODUCTION**

**(a) Authority.** These regulations are adopted under the authority granted by various sections of the Wisconsin Statutes, including but not limited to Sections 59.69, 59.692, 59.694, 59.696, 59.697, 87.30, 281.31, and Chapters 91, 236, 287, 289 and 823, Wis. Stats. 1999-00, as amended from time to time. Therefore, the County Board of Jefferson County, Wisconsin, does ordain as follows: [am. 03/13/12, Ord. 2011-28]

**(b) Purpose.** The purpose of this Ordinance is to promote the health, safety, morals, prosperity, aesthetics, and general welfare of this County, and to limit structures to those areas where soil and geological conditions will provide a safe foundation and prevent and control water pollution.

**(c) Intent.** It is the general intent of this Ordinance to regulate and to restrict the use of all structures, lands, shorelands, and waters; regulate and restrict lot coverage, population distribution and density, and the size and location of all structures so as to lessen congestion in and promote the safety and efficiency of the streets and highways; secure safety from fire, flooding, panic, and other dangers; provide adequate light, air, sanitation, and drainage; prevent overcrowding; avoid undue population concentration; facilitate the adequate provision of public facilities and utilities; stabilize and protect property values; further the appropriate use of land and conservation of natural resources; preserve and promote the beauty of the community; prevent and control water pollution; protect spawning grounds, fish and aquatic life; preserve shoreline cover; and implement the Jefferson County Comprehensive Plan, as may be amended by the County Board from time to time. It is further intended to provide for the administration and enforcement of this Ordinance and to provide penalties for its violation. [Amended 2/8/00, Ord. No. 99-28, am. 3/13/12, Ord. 2011-28]

**(d) Abrogation and Greater Restrictions.** It is not intended by this Ordinance to repeal, abrogate, annul, impair, or interfere with any existing easements, covenants, deed restrictions, agreements, ordinances, rules, regulations, or permits previously adopted or issued pursuant to laws. However, wherever this Ordinance imposes greater restrictions, the provisions of this Ordinance shall govern. The shoreland provisions of this Ordinance supersede all the provisions of any County zoning ordinance adopted under Section 59.692, Wisconsin Statutes, which relate to shorelands. The general shoreland zoning provisions located in Section 11.10 and the Shoreland-Wetland District regulations of Section 11.10(c) shall not require approval or be subject to disapproval by any town or town board. However, where an ordinance adopted under a statute other than Section 59.692, Wisconsin Statutes, is more restrictive than this Ordinance, that ordinance shall continue in full force and effect to the extent of the greater restrictions, but not otherwise. (Amended 11/13/84, Ord. No. 84-15, and 4/16/84, Ord. No. 85-4.)

**(e) Interpretation.** In their interpretation and application, the provisions of this Ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the County and shall not be deemed a limitation or repeal of any other power granted by the Wisconsin Statutes. Geographic Information System (GIS) data is utilized for interpretations of this ordinance. GIS data is a graphic representation of the underlying data that is contained in the Soil Survey of Jefferson County, Wisconsin, Federal Emergency Management Agency (FEMA) floodplain maps, Wisconsin DNR Wetland Inventory maps, official zoning maps and tax parcel maps. [Amended 2/8/00, Ord. No. 99-28]

**(f) Severability.** If any section, clause, provision, or portion of this Ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected thereby.

**(g) Repeal.** All other ordinances or parts of ordinances of the County inconsistent or conflicting with this ordinance, to the extent of the inconsistency only, are hereby repealed.

**(h) Title.** This Ordinance shall be known as, referred to or cited as the "1975 ZONING ORDINANCE, COUNTY OF JEFFERSON, WISCONSIN."

**District:** A portion or portions of Jefferson County for which the regulations governing the use of land and building are uniform.

**Dwelling Unit:** One (1) or more rooms designed as a unit for occupancy by not more than one (1) family for living and sleeping purposes.

**Encroachment Lines:** Limits of obstruction to flood flows. These lines are generally parallel to the stream. The lines are established by assuming that the area landward (outside) of the encroachment lines will be ultimately developed in such a way that it will not be available to convey flood flows. The stream channel and adjoining flood plains between these lines will be maintained as open space and will be adequate to convey the regional flood without adversely increasing flood heights.

**End of Taper:** The point of intersection between the outer edges of the ramp pavement and the mainline pavement.

**Environmental Corridors:** Environmentally sensitive areas located throughout Jefferson County where additional land preservation policies and development standards are applied. Mapped environmental corridors include

all land that meets one or more of the following conditions: public-owned park, recreation, and conservancy lands, water bodies and wetlands mapped as part of the Wisconsin DNR Wetland Inventory, 100-year floodplains based upon FEMA maps or contiguous woodlands over 10 acres in size. In addition to the mapped criteria listed above, any land

with a slope in excess of 20% should be considered as an environmental corridor and subject to environmental corridor land use policies. [2/8/00, Ord. No. 99-28]

**Equal Degree of Encroachment:** Established by considering the effect of encroachment on the hydraulic efficiency of the flood plain along a significant reach of the stream. Dependent upon factors such as the relative orientation of the channel with respect to the floodway, the natural and manmade characteristics of the flood plain, relative ground level on both sides of the stream, the type of vegetation on both sides of the stream and the resistance of such vegetation to flood flow. In most cases these factors will not result in equal distances or areas between encroachment lines on both sides of the stream.

**Essential Services:** Services provided by public and private utilities, necessary for the exercise of the principal use or service of the principal structure. These services include underground, surface, or overhead gas, electrical, steam, water, sanitary, sewerage, storm water drainage, and communication systems and accessories thereto, such as telephone and power distribution poles, non-electrical poles and towers, mains, drains, vaults, culverts, laterals, sewers, pipes, catch basins, conduits, cables, fire alarm boxes, traffic signals, pumps, lift stations, and hydrants, but not including buildings.

**Expressway:** A divided principal or primary arterial highway with full or partial control of access and with or without grade separated intersections.

**Family:** Any number of persons related by blood, adoption, or marriage, or not to exceed three (3) persons not so related, living together in one dwelling as a single housekeeping entity.

**Family Day Care Home (4-8 children):** Any accessory use within an occupied dwelling in which a qualified person or persons provide child care for four to eight children. The care of less than four children is not subject to the regulations of this Ordinance. Family day care homes are also regulated under §66.1017(1)(a) of the Wisconsin Statutes. [cr. 3/13/12, Ord. 2011-28]

**Farm:** A parcel or parcels of land where the majority of the land is used for growing farm products, such as vegetables, trees (e.g., orchard), and grain, and/or the raising of the farm animals, from which at least \$6,000 of gross farm revenue in the prior full calendar year (or \$18,000 total over the last 3 years) have been earned or where the land is enrolled in a farm commodity or conservation program, and typically operated as a single business venture distinct from other farms. Also referred to as a "farm operation." [cr. 3/13/12, Ord. 2011-28]

**Farm Residence:** A single-family residence located on a farm that meets one of the following criteria:

- a. Is the only residence on the farm; or
- b. Is occupied by an owner or operator of the farm; or
- c. Is occupied by an individual who earns more than 60 percent of his or her gross income from the farm.

[cr. 3/13/12, Ord. 2011-28]

**Feedlot:** Any livestock feeding or housing area or structure in which the concentration of animals is such that a vegetative cover is not maintained during the summer. This is not applicable for ATCP51 Livestock Siting Rules. See ATCP51 for applicable definition relating to livestock facilities. [Amended 09/11/06, Ord. 2006-15]

**First Amendment Protected Adult-Oriented Establishment:** See 11.04(k) [Created 6/21/05, Ordinance No. 2005-10]

**Flood:** A temporary rise in stream flow or stage that results in water overtopping its banks and inundating areas adjacent to the channel.

**Flood Plain:** The land which has been or may be hereafter covered by flood water during the regional flood. The flood plain includes the floodway and the flood fringe as those terms are defined in Chapter NR116, Wisconsin Administrative Code. [11/13/84, Ord. No. 84-15]

**Flood Profile:** A graph or a longitudinal profile showing the relationship of the water surface elevation of a flood event to location along a stream or river.

**Flood Proofing:** A combination of structural provisions, changes or adjustments to properties and structures subject to flooding primarily for the reduction or eliminating of flood damages to properties, water and sanitary facilities, structures, and contents of buildings of a flood hazard area. This includes sealing, anchoring, elevating, and filling.

**Flood, Regional:** A flood determined by the Department of Natural Resources which is representative of large floods known to have occurred generally in Wisconsin and reasonably characteristic of what can be expected to occur on a particular stream. The regional flood generally has an average frequency in the order of the one hundred (100) year recurrence interval flood, determined from an analysis of floods on a particular stream and other streams in the same general region.

**Flood Stage:** For the purposes of this Ordinance, the term is used to mean the elevation of a flood as referred to some datum. For other purposes, it is commonly used to refer to the elevation at which a stream will overtop its banks at normal stage. [Amended 4/16/85, Ord. No. 85-4]

**Floodway:** The channel of a stream and those portions of the flood plain adjoining the channel that are required to carry and discharge the flood water or flood flows of any river or stream including but not limited to flood flows associated with the regional flood.

These conditional uses are associated with adaptive reuse of barns as defined in the ordinance. Existing pre-1970 barns with a limitation for additions of no more than 25 percent of the existing footprint and no more than 25 percent replacement, modification or repair of existing structural members. However, as part of the conditional use process the Planning and Zoning Committee may consider replacement, modification or repair of the existing barn that exceeds this limitation if it meets the purpose and intent of this section. In addition, the limitations of Section 11.09 still apply. As a condition of approval, the barn conversion shall meet all applicable Federal, State and Local Codes for the conversion to a public building and place of employment. Notice of approval from the State of Wisconsin shall be submitted to the Zoning Department prior to issuance of the Zoning and Land Use permit which is required for conversion of use. [Ord. **6. A-1 EXCLUSIVE AGRICULTURAL** [cr. 3/13/12, Ord. 2011-28]

**Purpose.** The long range goal for agricultural land use within Jefferson County is to preserve the most valuable of all resources—fertile land for agricultural pursuits—and to protect the land best suited for farming from premature urbanization. The A-1 Exclusive Agricultural district is intended to promote continued agricultural uses on the best quality agricultural land; protect and encourage long-term investments in food, fiber, and other resource-related production; be a state-certified farmland preservation zoning district to maintain property owner eligibility in the State’s farmland preservation tax credit program in conjunction with the Agricultural Preservation and Land Use Plan; preserve rural character and manage nonfarm development; and provide reasonable opportunities for agriculturally-related businesses and home occupations. The Exclusive Agricultural zoning district may be utilized only in areas designated as Agricultural Preservation Areas within the Jefferson County Agricultural Preservation and Land Use Plan. Rezoning out of the A-1 district may occur only after the County Planning and Zoning Committee conducts a public hearing and makes findings as specified in §91.48(1) of the Wisconsin Statutes, as articulated in Section 11.11(c) of this Ordinance. Rezoning to the A-3 district under the associated policies of that district and the Agricultural Preservation and Land Use Plan is the only way that new housing may be built on lands currently zoned A-1, except for replacement of certain farm residences as authorized by this section.

**Permitted Principal Uses.**

- a. Agricultural use, subject to the following limitations:
  - 1. Each feedlot may not exceed 150 livestock units [see Section 11.05d(1) non ATCP-regulated facility].
  - 2. Each fowl or poultry farm shall house 10,000 birds or less [see Section 11.05d(1) non ATCP-regulated facility].
  - 3. Each ATCP 51 regulated livestock facility shall have 150 animal units or less [see Section 11.05d(2)].
- b. Undeveloped natural resource or open space area.

Greater than three (3) semi-trailers or truck boxes used for the storage of agricultural equipment, supplies, or products on A-1 zoned property of thirty-five (35) or more contiguous acres in the same ownership (for the purposes of this provision, a road shall not be considered a divider of contiguity). Normal setbacks and permits shall be required for trailers and truck boxes used for storage of agricultural equipment.

**Minimum Lot Area.** Thirty-five (35) acres, with the following exceptions and qualifiers:

- a. A-1 lots created around a residence constructed before January 15, 1975 as a result of a farm consolidation certified survey map recorded between January 15, 1975 and March 13, 2012, with such lots instead having a minimum lot area of one acre. (Farm consolidation lots for certified survey maps recorded after March 13, 2012 are still allowed, but require rezoning to the A-3 district.)
- b. Parcels of less than thirty-five (35) acres which existed prior to January 15, 1975, with such parcels instead having a minimum lot area equal to their lot area on January 15, 1975.

**Purpose.** The purpose of the A-3 Agricultural/Rural Residential District is to allow limited rural residential development on lands in predominantly agricultural areas that are not suited for agricultural production or, due to the proposed location, would have limited impact on agricultural production. Lots are limited in number, size and location to minimize the impacts associated with rural residential development. Residents of this district may experience conditions associated with farming that are not necessarily compatible with rural residential use. This district may be considered within the Agricultural Preservation Areas, Rural Hamlet areas, Environmental Corridor overlay, Urban Services Areas, and Limited Service Areas, as described in the Jefferson County Agricultural Preservation and Land Use Plan. Within planned Agricultural Preservation Areas, the number of A-3 lots created from a parcel of record shall be limited per the associated policies within that Plan. **Minimum Yards.** Front - Section 11.07(d)2. Rear - 20 feet. Side - 20 feet each. [am. 4/21/87, Ord. No. 87-

**Maximum Building Height.** Thirty-five (35) feet, except see Section 11.07(a)2 for height standards for agricultural structures. [cr. 3/13/12, Ord. 2011-28]

**Maximum Lot Area.** Two (2) acres, with the following possible exceptions and qualifiers:

- a. Possible lot combinations under the policies for creation of A-3 lots within this Ordinance and the Agricultural Preservation and Land Use Plan, which may allow for larger area in non-prime and prime agricultural land lots (i.e., e.g., one six-acre lot may be substituted for three two-acre lots in non-prime agricultural land or one four-acre lot may be substituted for two two-acre lots in prime agricultural land upon Planning and Zoning Committee and County Board approval). A lot combination may be considered by the Committee in an environmental corridor if enough non-prime agricultural land is available, even though the maximum number of lots may have been reduced due to environmental corridor density provisions described in A-3 Maximum Number of Lots section. [am. 3/13/12, Ord. 2011-28]
- b. A lot of greater than two (2) acres in area shall be considered by the Planning and Zoning Committee if necessary to accommodate a dwelling built before February 8, 2000 and its driveway and accessory structures, if the town board first approves the preliminary certified survey map. In such cases, lot area around the dwelling and accessory structures shall not exceed the maximum acreage allowed by this section. [am. 3/13/12, Ord. 2011-28]
- c. A lot of up to five (5) acres in area may be considered by the Planning and Zoning Committee in association with a farm consolidation for an existing residence and associated accessory structures, if the residence in question was constructed prior to January 15, 1975 (or was subsequently replaced with a newer home) and the parcel ~~remaining contains a minimum of thirty five (35) contiguous acres and~~ continues to be zoned A-1. [cr. 3/13/12, Ord. 2011-28]  
 [2/8/00, Ord. No. 99-28; lettered 3/13/12, Ord. 2011-28]

**Maximum Lot Coverage By Buildings.** Maximum lot coverage by principal and accessory structures not to exceed thirty (30) percent of existing lot area. [4/16/85, Ord. No. 85-4]

**Maximum Number of Lots.** Three (3) non-prime agricultural land A-3 lots or one (1) or two (2) prime agricultural land A-3 lot(s) with clustering recommended. The number of possible prime agricultural land lots is based on the amount and configuration of land owned (see the lot chart below). With less than fifty (50) acres, one (1) prime agricultural land lot is possible. With fifty (50) acres or more, two (2) prime agricultural land lots are possible. The minimum amount of prime agricultural land shall be utilized when approving the prime lot option. If an option is utilized to mix non-prime and prime agricultural land lots, the prime agricultural land maximum lot numbers shall apply. A-3 lots created since the 1977 adoption of the A-3 zoning district shall also be taken into account when determining how many A-3 lots may be available. All parcels of record may propose the maximum number of lots described in this section unless the number of lots has been reduced due to A-3 lots being created from the parent parcel predating the parcel of record. Each parcel of record would have the possibility of at least one A-3 lot upon Committee review and County Board approval. Existing A-3 lots created since 1977 shall not be further redivided so as to create additional lots. A-3 lots proposed for dwellings constructed prior to December 13, 1977 do not count as having utilized an A-3 lot division. [2/8/00, Ord. No. 99-28]

Environmental corridor overlays described in the plan may also impact the maximum number of possible A-3 lots available as described in the following lot chart by utilizing the development density of no greater than one dwelling unit per 10 acres. Clear cutting upland wooded environmental corridor areas in existence at the time of the enactment of this ordinance provision shall not increase the number of A-3 lots available (see the environmental corridor detailed policies in the Jefferson County Agricultural Preservation and Land Use Plan). Also, A-2 lots for an agricultural residence shall reduce the number of lots available. [2/8/00, Ord. No. 99-28]

In order to achieve safer access, more effective clustering or protection of land resources, the Committee may consider the consolidation of multiple parcels of record that are contiguous or divided only by a public road and under the same ownership. In reviewing the consolidation for the purpose of a proposed A-3 lot(s) relocation, the Committee must determine that they would have otherwise approved the number of lots on each separate parcel of record. Any proposed lots relocated in this manner would constitute use of all the lots from that separate parcel of record regardless of the number actually relocated. Proposed lots that would have been approved in a non-prime agricultural soil location cannot be relocated into prime agricultural soils unless the number of proposed lots is reduced to the prime soil numbers as described in the "Maximum Number of Lots" section. Conversely, the number of lots would not be increased if relocated from a prime soil location on the separate parcel of record to a non-prime agricultural soil

location on the consolidated parcel of record. Town approval is required for any request for consolidation of parcels of record. [Created 09/11/06, Ord. 2006-15]

## (2) FIRST AMENDMENT PROTECTED ADULT-ORIENTED ESTABLISHMENTS

### PURPOSE AND FINDINGS OF FACT.

Purpose: It is the purpose of this ordinance to regulate sexually oriented businesses in order to promote the health, safety, and general welfare of citizens of Jefferson County, and to establish reasonable and uniform regulations to prevent the deleterious location and concentration of sexually oriented businesses within Jefferson County. The provisions of this ordinance have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials, including sexually oriented materials. Similarly, it is neither the intent nor effect of this Ordinance to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market. Neither is it the intent nor effect of this ordinance to condone or legitimize the distribution of obscene material.

### Findings:

- a. The Board finds that Adult-Oriented Establishments, as defined in this ordinance, require special zoning in order to protect and preserve the health, safety, and welfare of the County.
- b. Based on its review of studies conducted in Phoenix, AZ; Garden Grove, CA; Los Angeles, CA; Whittier, CA; Indianapolis, IN; Minneapolis, MN; St. Paul MN; Cleveland, OH; Oklahoma City, OK; Amarillo, TX; Austin, TX; Beaumont, TX; Dallas, TX; Houston, TX; Newport News, VA; Bellevue, WA; New York, NY; Seattle, WA; and St. Croix County, WI; and the Report of the Attorney General's Working Group of Sexually Oriented Businesses (June 6, 1989, State of Minnesota), and statistics obtained from the U.S. Department of Health and Human Services, Centers for Disease Control and Preventions, and the findings incorporated in *City of Renton v. Playtime Theaters, Inc.*, 475 U.S. 41 (1986), *Colman A. Young v. American Mini-Theaters, Inc.*, 427 U.S. 50 (1976), *FW/PBS, Inc. v. City of Dallas*, 493 U.S. 215 (1990), *Barnes v. Glen Theatre, Inc.* 501 U.S. 560 (1991), *City of Erie v. Pap's A.M.*, 120 S. Ct. 1382 (2000), *East of the River Enterprises II v. City of Hudson*, 2000 Wisc. App. Lexis 734 (Ct. App. Aug.1, 2000); *Ben's Bar, Inc. v. Village of Somerset*, \_\_\_ F.3d \_\_\_, 2003 WL 132541 (7<sup>th</sup> Cir. 2003), the Board finds that there is convincing evidence that the secondary effects of Adult-Oriented Establishments include an increased risk of prostitution, high-risk sexual behavior, crime, and other deleterious effects upon existing businesses and surrounding residential area, and decreased property values.
- c. The Board intends to control the impact of these secondary effects in order to protect the health, safety, and welfare of the citizenry; protect the citizens from increased crime; preserve the quality of life; preserve the property values and character of surrounding neighborhoods and areas.
- d. It is not the intent of the Board to suppress any speech activities protected by the First Amendment, but to enact a content-neutral ordinance which addresses the secondary

- e. effects of Adult-Oriented Establishments while providing an outlet for First Amendment protected activities.
- f. In order to minimize and control the secondary effects of Adult-Oriented Establishments upon the County, it is the intent of the Board to prevent the concentration of Adult-Oriented Establishments within a certain distance of each other and within certain distance of other specified locations which are incompatible with and would suffer from the secondary effects of Adult-Oriented Establishments.
- g. Based upon its review of materials linking alcohol consumption and high-risk sexual behavior and materials linking alcohol consumption and crimes such as sexual assault, the Board finds that a geographic separation of Adult-Oriented Establishments from alcohol beverage licensed premises is warranted.

**(3) LOCATION OF FIRST AMENDMENT PROTECTED ADULT-ORIENTED ESTABLISHMENTS**

- a. The First Amendment and other provisions of the United States Constitution, as interpreted by the United States Supreme Court and other courts, require that Adult-Oriented Establishments, as defined by this ordinance, are entitled to certain protections. Therefore, an Adult-Oriented Establishment shall be a permitted use in the B-Business zoning district and shall be a prohibited use in any other zoning district. The Adult-Oriented Establishment may locate in the specified district only if an Adult-Oriented Establishment License has been granted by a town or municipality requiring such license within the County which is subject to this ordinance, and all the requirements of this section and the applicable zoning district regulations are met.
- b. Adult-Oriented Establishments shall be located at least 1,000 feet from:
  - 1. any residential district line where a single-family residence is a principal use, playground lot line, public park lot line, or publicly owned recreation area;
  - 2. any structure used as a residence, place of religious worship, public or private school, or "Youth-Facility" as defined in this ordinance;
  - 3. any other structure housing an Adult-Oriented Establishment;
  - 4. any structure housing an establishment which holds an alcohol beverage license.
- c. Distance requirements are to be measured in a straight line in any direction regardless of intervening structures, from the structure housing the Adult-Oriented Establishment to the residential district boundary lines, to the lot line of any lot used for park, playground, or any structure listed in 11.04(k)(3)b.1-4 above.
- d. The measurements from a structure shall be taken from the farthest point a structure extends in the direction of the measurement, including overhanging roofs or similar projections.
- e. For Adult-Oriented Establishments located in conjunction with other buildings such as in a shopping center, and clearly separate from other establishments, measurements shall be taken from the boundaries of the space occupied by the Adult-Oriented Establishment.
- f. For any Adult-Oriented Establishment located above ground level in a multi-story structure and clearly separate from other establishments within the structure, the distance measurements shall be taken from the ground floor public entrance/exit nearest the Adult-Oriented Establishment (excluding emergency exits).

- g. Subsequent location of any establishments described in 11.04(k)(3)b.1-4 within 1000 feet of an existing Adult-Oriented Establishment does not constitute a violation of this Ordinance by the Adult-Oriented Establishment.

  - 2. A written permit application must be completed by any applicant and submitted to the County Planning and Zoning Department. The application must contain the following information:
    - A. The name and business address of, and the contact individual for, the applicant.
    - B. The location of the proposed or affected support structure.
    - C. The location of the proposed mobile service facility.
    - D. If the application is to substantially modify an existing support structure, a construction plan which describes the proposed modifications to the support structure and the equipment and network components, including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment associated with the proposed modifications.
    - E. If the application is to construct a new mobile service support structure, a construction plan which describes the proposed mobile service support structure and the equipment and network components, including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment to be placed on or around the new mobile service support structure.
    - F. If an application is to construct a new mobile service support structure, an explanation as to why the applicant chose the proposed location and why the applicant did not choose collocation, including a sworn statement from an individual who has responsibility over the placement of the mobile service support structure attesting that collocation within the applicant's search ring would not result in the same mobile service functionality, coverage, and capacity; is technically infeasible; or is economically burdensome to the mobile service provider.
  - 3. A permit application will be provided by the County upon request to any applicant.
  - 4. If an applicant submits to the County an application for a permit to engage in an activity described in this ordinance, which contains all of the information required under this ordinance, the County shall consider the application complete. - 7. If an applicant provides the County with an engineering certification showing that a mobile service support structure, or an existing structure, is designed to collapse within a smaller area than the set back or fall zone area required in a zoning ordinance, that zoning ordinance does not apply to such a structure unless the county provides the applicant with substantial evidence that the engineering certification is flawed.
- 8. The fee for the permit is \$3,000 per s. 66.0404(4)(d).
- 9. Limitations. Land Use Permits for siting and construction of any new mobile service support structure and facilities and land use permits for class 1 collocations shall only be granted provided the following conditions exist:
  - A. If the location of the proposed mobile service support structure or mobile service facility is on leased land, the lease agreement does not preclude the lessee from entering into leases on the site with other provider(s) and there is no other lease provision operating as a bar to collocation of other providers.
  - B. The applicant has obtained Federal Communications Commission (FCC) license numbers and registration numbers if applicable.
  - C. The applicant and/or agent have copies of Findings of No Significant Impacts (FONI) statement from the Federal Communications Commission (FCC) or Environmental Assessment or Environmental Impact Study (EIS), if applicable.

  - H. The applicant and/or agent have copies of an Affidavit of Notification indicating that all operators and owners of airports located within five (5) miles of the proposed site have been notified via certified mail.
  - I. The facility or collocation is designed to promote site sharing, such that space is reasonably available to collocators and such that telecommunication towers and necessary appurtenances, including but not limited to parking areas, access road, and utilities, are shared by site users whenever possible.

**(7) CLASS 2 COLLOCATION.**

- a. Application Process
  - 1. A county zoning permit is required for a class 2 collocation. A class 2 collocation is a permitted use in the county but still requires the issuance of the county permit.

7. The fee for the permit is \$500 per s. 66.0404(4) (d).

**(8) INFORMATION REPORT.** The purpose of the report under this subsection is to provide the County with accurate and current information concerning the telecommunications facility owners and providers who offer or provide telecommunications services within the county, or that own or operate telecommunications facilities within the county, to assist the County in enforcement of this subsection, and to assist the County in monitoring compliance with local, state and federal laws.

- a. Information Report. All telecommunications tower owners of any new telecommunications tower shall submit to the Planning and Zoning Department a Telecommunications Facility Information Report (the "Report") within 45 days:
  1. Following conditional use approval;
  2. Of receipt of a written request from the Jefferson County Department of Planning and Zoning; and
  3. Of any change in occupancy of the tower.

The Report shall include the tower owner name(s), address(es), phone number(s), contact person(s), and proof of bond as security for removal. The tower owner shall supply the tower height or current occupancy, if applicable, the number of collocation positions designated, occupied or vacant. This information shall be submitted on the county form provided and designated for such use, and shall become evidence of compliance.

**(9) REMOVAL/SECURITY FOR REMOVAL.**

- a. It is the express policy of Jefferson County and this ordinance that telecommunications towers be removed once they are no longer in use and not a functional part of providing telecommunications service, and that it is the telecommunications provider's responsibility to remove such telecommunications tower and restore the site to its original condition or a condition approved by the Jefferson County Planning and Zoning Department. This restoration shall include removal of any subsurface structure or foundation, including concrete, used to support the telecommunications tower down to 5 feet below the surface. After a telecommunications tower is no longer in operation, the provider shall have 180 days to effect removal and restoration unless

weather prohibits such efforts. Permittee shall record a document with the Jefferson County Register of Deeds showing the existence of any subsurface structure remaining below grade. Such recording shall accurately set forth the location and describe the remaining structure.

- b. Security for Removal. The owner of any telecommunications tower shall provide to Jefferson County, prior to the issuance of the conditional use permit or the issuance of a zoning permit, a performance bond in an amount based on a written estimate of a qualified remover of said types of structures, or Twenty Thousand Dollars (\$20,000), whichever is less, to guarantee that the telecommunications tower will be removed when no longer in operation. Jefferson County will be named as obligee in the bond and must approve the bonding company. The County may require an increase in the bond amount after five (5) year intervals to reflect increases in the Consumer Price Index. **(b) Abolishment or Replacement.** If such nonconforming use is discontinued or terminated for a period of twelve (12) months, any future use of the structure, land, or water shall conform to the provisions of this Ordinance. Replacement or reconstruction of a nonconforming structure or use shall meet Wisconsin Statutes Chapter 59.69(10m) which states, "Restrictions that are applicable to damaged or destroyed nonconforming structures and that are contained in an ordinance enacted under this section may not: 1. prohibit the restoration of a nonconforming structure if the structure will be restored to the size, subject to par. (b), location, and use that it had immediately before the damage or destruction occurred, or 2. impose any limits on the costs of the repair, reconstruction, or improvement if all of the following apply:

Wis. Stats. s. 59.69(10m)(a)1. The nonconforming structure was damaged or destroyed on or after March 2, 2006.

Wis. Stats. s. 59.69(10m)(a)2. The damage or destruction was caused by violent wind, vandalism, fire, flood, ice, snow, mold, or infestation.

Wis. Stats. s. 59.69(10m)(b). An ordinance enacted under this section to which par. (a) applies shall allow for the size of a structure to be larger than the size it was immediately before the damage or destruction if necessary for the structure to comply with applicable state or federal requirements." This section does not apply to floodplain structures or uses. See Jefferson County Floodplain Ordinance and Wisconsin Statutes Chapter 87.30 for applicable floodplain restrictions regarding damaged by flood.

[Amended 4/16/85, Ord. No. 85-4; Ord. No. 2013-30, 03-11-2014; Ord. No. 2018-13, 08/13/2018]

A current file of all nonconforming uses shall be maintained by the Zoning Administrator listing the following: owner's name and address; use of the structure, land or water; and assessed value at the time of its becoming a nonconforming use.

**(c) Existing Nonconforming Structures.** The lawful nonconforming structure existing at the time of the adoption or amendment of this Ordinance may be continued although its size or location does not conform with the lot width, lot area, yard, height, parking and loading, and access provisions of this Ordinance; however, it shall not be extended, enlarged, moved, or structurally altered in excess of fifty (50) percent of the structural members of the existing structure with additions not exceeding 50% of existing foundation footprint whether vertical or horizontal and the addition shall meet all setbacks or go no closer to any side, rear or road setback. For an existing nonconforming structure located within any road right-of-way or existing over a lot line, no additions or alteration of structural members, not including ordinary maintenance, shall be permitted. Any alteration, or addition to any nonconforming structure shall also meet all the requirements of Section 11.10 of the Jefferson County Zoning Ordinance, Jefferson County Floodplain Ordinance and Wisconsin State Statutes Chapter 87.30. The repair, maintenance, renovation, rebuilding or remodeling of a nonconforming structure or any part of a nonconforming structure is not prohibited and does not require a variance if done so in accordance with this section. [Amended 4/16/85, Ord. No. 85-4; Ord. No. 2013-30, 03-11-2014; Ord. No. 2018-13, 08/13/2018]

Note: For this section, a structural member includes the number of existing walls, foundation walls, floor and roof. Any alteration to a structural member qualifies for inclusion in the calculation of the 50% provisions. [R3706T-14 – Jefferson County; Ord. No. 2013-30, 03-11-2014]

**(d) Changes and Substitutions.** Once a nonconforming use or structure has been changed to conform to the requirements of the Zoning Ordinance, it shall not revert back to a nonconforming use or structure. Once the Zoning Board of Adjustment has granted a variance to a more restrictive use from an existing nonconforming use, the substituted use shall lose its status as a legal nonconforming use and become subject to all the conditions required by the Zoning Board of Adjustment. [Ord. No. 2018-13, 08/13/2018]

**(e) Standard Lots.** (a) In any Residential, Waterfront or Community District, a one-family detached dwelling and its accessory structures may be erected on any legal lot or parcel of record in the County Register of Deeds Office. All current sections and subsequent amendments of this Ordinance, the Jefferson County Private Sewage System Ordinance and the Jefferson County Floodplain Ordinance shall apply. [Amended 2/8/00, Ord. No. 99-28; Ord. No. 2018-13, 08/13/2018]

(c) In any zoning district, the substandard lot shall not be used without full compliance with the provisions of all current sections and subsequent amendments of this Ordinance, the Jefferson County Private Sewage System Ordinance and the Jefferson County Floodplain Ordinance. For a substandard parcel in any district, all of the district requirements shall be complied with insofar as practicable, but shall not be less than the following, and shall meet all requirements of the County's Private Sewage System Ordinance, Floodplain Ordinance and Section 11.10 Shoreland Provisions: [Amended 2/8/00, Ord. No. 99-28; Ord. No. 2018-13, 08/13/2018]

(f) **Non-farm residences within the A-1 District.** Residences within the A-1 district- legally constructed before January 15, 1975, but not defined as a farm residence under Section 11.02, may continue as prior nonconforming uses, and shall not be subject to any standard or limitation under Section 11.09, except for the following: [Ord. No. 2018-13, 08/13/2018]

1. ~~If such a nonconforming use is discontinued, vacated, or otherwise terminated for a period of twelve (12) months, any future use of the structure shall conform to the provisions of this Ordinance. If the replacement or reconstruction is requested more than 15 years after the removal, abandonment, or nonuse as a residence, the request shall be made to the Planning and Zoning Committee. The Committee shall review the request for compliance with this ordinance and the Agricultural Preservation and Land Use Farmland Preservation Plan. #### **11.10 SHORELAND PROVISIONS**

(a) STATUTORY AUTHORIZATION, FINDING OF FACT, STATEMENT OF PURPOSE AND TITLE.

1. STATUTORY AUTHORIZATION. This ordinance is adopted pursuant to the authorization in s. 59.692, Wis. Stats., to implement s. 59.692, and s. 281.31.

2. FINDING OF FACT. Uncontrolled use of the shorelands and pollution of the navigable waters of Jefferson County will adversely affect the public health, safety, convenience, and general welfare and impair the tax base. The legislature of Wisconsin has delegated responsibility to the counties to: further the maintenance of safe and healthful conditions; prevent and control water pollution; protect spawning grounds, fish and aquatic life; control building sites, regulate the placement of structures and land uses; and preserve shore cover and natural beauty. This responsibility is hereby recognized by Jefferson County, Wisconsin.

3. PURPOSE AND INTENT. [NR115.01] For the purpose of promoting the public health, safety, convenience and welfare, and to promote and protect the public trust in navigable waters, this ordinance has been established to:

a. FURTHER THE MAINTENANCE OF SAFE AND HEALTHFUL CONDITIONS AND PREVENT AND CONTROL WATER POLLUTION THROUGH:

1. Limiting structures to those areas where soil and geological conditions will provide a safe foundation.
2. Establishing minimum lot sizes to provide adequate area for private on-site waste treatment systems.
3. Controlling filling and grading to prevent soil erosion problems.
4. Limiting impervious surfaces to control runoff which carries pollutants.

b. PROTECT SPAWNING GROUNDS, FISH AND AQUATIC LIFE THROUGH:

1. Preserving wetlands and other fish and aquatic habitat.
2. Regulating pollution sources.

3. Controlling shoreline alterations, dredging and lagooning.

c. CONTROL BUILDING SITES, PLACEMENT OF STRUCTURES AND LAND USES

THROUGH:

1. Prohibiting certain uses detrimental to the shoreland-wetlands.
2. Setting minimum lot sizes and widths.
3. Setting minimum building setbacks from waterways.
4. Setting the maximum height of near shore structures.

d. PRESERVE AND RESTORE SHORELAND VEGETATION AND NATURAL SCENIC BEAUTY THROUGH:

1. Restricting the removal of natural shoreland cover.
2. Preventing shoreline encroachment by structures.
3. Controlling shoreland excavation and other earth moving activities.
4. Regulating the use and placement of boathouses and other structures.

4. TITLE. Shoreland Protection Ordinance for Jefferson County, Wisconsin.

(b) GENERAL PROVISIONS.

1. AREAS TO BE REGULATED. Areas regulated by this ordinance shall include all the lands (referred to herein as shorelands) in the unincorporated areas of Jefferson County which are:

a. Within one thousand (1,000) feet of the ordinary high-water mark of navigable lakes, ponds or flowages. [NR 115.03(8)]

Lakes, ponds or flowages in Jefferson County shall be presumed to be navigable if they are listed in the Wisconsin Department of Natural Resources publication FH-800 2009 "Wisconsin Lakes" book available electronically at the following web site: <http://dnr.wi.gov/lakes/lakebook/wilakes2009bma.pdf> or are shown on United States Geological Survey quadrangle maps (1:24,000 scale), or other zoning base maps.

b. Within three hundred (300) feet of the ordinary high-water mark of navigable rivers or streams, or to the landward side of the floodplain, whichever distance is greater. [NR 115.03(8)]

Rivers and streams in Jefferson County shall be presumed to be navigable if they are designated as perennial waterways or intermittent waterways on United States Geological Survey quadrangle maps (1:24,000). Flood hazard boundary maps, flood insurance rate maps, flood boundary-floodway maps, county soil survey maps or other existing county floodplain zoning maps shall be used to delineate floodplain areas.

c. The provisions of this chapter apply to regulation of the use and development of unincorporated shoreland areas. Unless specifically exempted by law, all cities, villages, towns, counties and, when s. 13.48 (13), Stats., applies, state agencies are required to comply with, and obtain all necessary permits under, local shoreland ordinances. The construction, reconstruction, maintenance or repair of state highways and bridges carried out under the direction and supervision of the Wisconsin Department of Transportation is not subject to local shoreland zoning ordinances if s. 30.2022 (1), Stats., applies (NR 115.02). Shoreland zoning requirements in annexed or incorporated areas are provided in s. 61.353 and s. 62.233, Stats.[Ord. No. 2017-09, 08-08-2017]

d. Lands under s. 281.31(2m), Wis. Stats., notwithstanding any other provision of law or administrative rule promulgated thereunder, shall not be affected by this shoreland zoning ordinance and shall not apply to:

1. Lands adjacent to farm drainage ditches if:
  - a. Such lands are not adjacent to a natural navigable stream or river;
  - b. Those parts of such drainage ditches adjacent to such lands were not navigable streams before ditching; and
2. Lands adjacent to artificially constructed drainage ditches, ponds or stormwater retention basins that are not hydrologically connected to a natural navigable water body.

2. DETERMINATIONS OF NAVIGABILITY AND ORDINARY HIGH-WATER MARK.

Determinations of navigability and ordinary high-water mark location shall initially be made by the zoning administrator. When questions arise, the zoning administrator shall contact the appropriate office of the Department for a final determination of navigability or ordinary high-water mark. The County may work with surveyors with regard to s. 59.692(1h). [Ord. No. 2017-09, 08-08-2017]

3. SHORELAND-WETLAND MAPS. The most recent version of the Wisconsin Wetland Inventory as depicted on the Department of Natural Resources Surface Water Data Viewer is made part of this ordinance. The maps can be viewed at <http://dnrmaps.wi.gov/SL/Viewer.html?Viewer=SWDV&runWorkflow=Wetland>.

4. COMPLIANCE. [NR 115.04] The use of any land; the size, shape and placement of lots; the use, size, type and location of structures on lots; the installation and maintenance of water supply and waste disposal facilities; the filling, grading, lagooning, or dredging of any lands; the cutting of shoreland vegetation; and the subdivision of lots shall be in full compliance with the terms of this ordinance and other applicable local, state or federal regulations. Buildings and other structures shall require a permit unless otherwise expressly excluded by a provision of this ordinance. Property owners, builders and contractors are responsible for compliance with the terms of this ordinance.

5. MUNICIPALITIES AND STATE AGENCIES REGULATED. Unless specifically exempted by law, all cities, villages, towns, and counties are required to comply with this ordinance and obtain all necessary permits. State agencies are required to comply when s. 13.48(13), Wis. Stats., applies. The construction, reconstruction, maintenance and repair of state highways and bridges by the Wisconsin Department of Transportation are exempt when s. 30.2022(1), Wis. Stats., applies.

6. ABROGATION AND GREATER RESTRICTIONS. [s. 59.692(5), Wis. Stats.] The provisions of this ordinance supersede any provisions in a county zoning ordinance that solely relate to shorelands. If a zoning standard only applies to lands that lie within the shoreland and applies because the lands are within the shoreland, then this ordinance supersedes those provisions. However, where an ordinance adopted under a statute other than s. 59.692, Wis. Stats., does not solely relate to shorelands and is more restrictive than this ordinance, for example a floodplain ordinance, that ordinance shall continue in full force and effect to the extent of the greater restrictions. Additional abrogation and restrictions include:

a. [s. 59.692(2)(a), Wis. Stats.] This ordinance shall not require approval or be subject to disapproval by any town or town board.

b. [s. 59.692(2)(b), Wis. Stats.] If an existing town ordinance relating to shorelands is more restrictive than this ordinance or any amendments thereto, the town ordinance continues in all respects to the extent of the greater restrictions but not otherwise.

c. This ordinance is not intended to repeal, abrogate or impair any existing deed restrictions, covenants or easements. However, where this ordinance imposes greater restrictions, the provisions of this ordinance shall prevail.

d. Provisions of the Jefferson County Zoning Ordinance shall only apply to the shoreland area when they impose greater restrictions than this ordinance otherwise imposes and are hereby incorporated by reference.

e. [s. 59.692(1d)(b), Wis. Stats.] This ordinance may establish standards to regulate matters that are not regulated in ch. NR 115, Wis. Adm. Code, but that further the purposes of shoreland zoning as described in section 11.10(a)3 of this ordinance.

f. [s. 59.692(1k)(a)1., Wis. Stats.] Counties may not establish shoreland zoning standards in a shoreland zoning ordinance that requires any of the following:

1. Approval to install or maintain outdoor lighting in shorelands, imposition of any fee or mitigation requirement to install or maintain outdoor lighting in shorelands, or other prohibition or regulation of outdoor lighting in shorelands if the lighting is designed or intended for residential use.
2. Inspection or upgrade of a structure before the sale or other transfer of the structure may be made.

g. [s. 59.692(7), Stats.] The construction and maintenance of a facility is considered to satisfy the requirements of a shoreland zoning ordinance if:

1. The department has issued all required permits or approvals authorizing the construction or maintenance under ch. 30, 31, 281 or 283.

A "facility" means any property or equipment of a public utility, as defined in s. 196.01(5), or a cooperative association organized under ch. 185 for the purpose of producing or furnishing heat, light or power to its members only, that is used for the transmission, delivery or furnishing of natural gas, heat, light or power. [Ord. No. 2017-09, 08-08-2017]

7. INTERPRETATION. [s. 59.69(13), Wis. Stats.] In their interpretation and application, the provisions of this ordinance shall be liberally construed in favor of Jefferson County and shall not be deemed a limitation or repeal of any other powers granted by Wisconsin Statutes. Where a provision of this ordinance is required by statute and a standard in ch. NR 115, Wis. Adm. Code, and where the ordinance provision is unclear, the provision shall be interpreted in light of the statute and ch. NR 115 standards in effect on the date of the adoption of this ordinance or in effect on the date of the most recent text amendment to this ordinance.

8. SEVERABILITY. If any portion of this ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected.

(c) SHORELAND-WETLAND DISTRICT. [NR 115.04]

1. DESIGNATION. This district shall include all shorelands within the jurisdiction of this ordinance which are designated as wetlands on the most recent version of the Wisconsin Wetland Inventory as depicted on the Department of Natural Resources Surface Water Data Viewer.

a. LOCATING SHORELAND-WETLAND BOUNDARIES. [NR 115.04(b)2. Note] Where an apparent discrepancy exists between the shoreland-wetland district boundary shown on the Wisconsin Wetland Inventory and actual field conditions, the county shall contact the Department to determine if the map is in error. If the Department determines that a particular area was incorrectly mapped as wetland or meets the wetland definition but was not shown as wetland on the map, the county shall have the authority to immediately grant or deny a shoreland zoning permit in accordance with the applicable regulations based on the Department determination as to

whether the area is wetland. In order to correct wetland mapping errors on the official zoning map, an official zoning map amendment must be initiated within a reasonable period of time after discovery of the wetland mapping error.

2. **PURPOSE.** This district is created to maintain safe and healthful conditions, to prevent water pollution, to protect fish spawning grounds and wildlife habitat, to preserve shore cover and natural beauty and to control building and development in wetlands whenever possible. When development is permitted in a wetland, the development should occur in a manner that minimizes adverse impacts upon the wetland.

3. **PERMITTED USES.** [NR 115.04(3)] The following uses shall be allowed, subject to general shoreland zoning regulations contained in this ordinance, the provisions of chs. 30, 31 and 281.36, Wis. Stats. and the provisions of other applicable local, state and federal laws:

a. Activities and uses which do not require the issuance of a zoning permit, but which must be carried out without any filling, flooding, draining, dredging, ditching, tiling or excavating except as allowed under sections 11.10(c)3.a. or 11.10(c)3.b.

1. Hiking, fishing, trapping, hunting, swimming, and boating;
2. The harvesting of wild crops, such as marsh hay, ferns, moss, wild rice, berries, tree fruits, and tree seeds, in a manner that is not injurious to the natural reproduction of such crops;

1. Temporary water level stabilization measures necessary to alleviate abnormally wet or dry conditions that would have an adverse impact on silvicultural activities if not corrected;
2. The cultivation of cranberries including flooding, dike and dam construction or ditching necessary for the growing and harvesting of cranberries;
3. The maintenance and repair of existing agricultural drainage systems including ditching, tiling, dredging, excavating and filling necessary to maintain the level of drainage required to continue the existing agricultural use. This includes the minimum filling necessary for disposal of dredged spoil adjacent to the drainage system provided that dredged spoil is placed on existing spoil banks where possible;
4. The construction or maintenance of fences for the pasturing of livestock, including limited excavating and filling necessary for such construction or maintenance;
5. The construction or maintenance of piers, docks or walkways built on pilings, including limited excavating and filling necessary for such construction and maintenance; and
6. The maintenance, repair, replacement or reconstruction of existing town and county highways and bridges, including limited excavating and filling necessary for such maintenance, repair, replacement or reconstruction.

c. Uses which require the issuance of a zoning permit and which may include limited filling, flooding, draining, dredging, ditching, tiling or excavating, but only to the extent specifically provided below:

1. The construction and maintenance of roads which are necessary to conduct silvicultural activities or agricultural cultivation, provided that:
  - a. The road cannot as a practical matter be located outside the wetland;
  - b. The road is designed and constructed to minimize adverse impact upon the natural functions of the wetland enumerated in section 11.10(c)5.b.;

- c. The road is designed and constructed with the minimum cross-sectional area practical to serve the intended use;
  - d. Road construction activities are carried out in the immediate area of the roadbed only.

    - a. The building is essential for and used solely in conjunction with the raising of waterfowl, minnows or other wetland or aquatic animals; or some other use permitted in the shoreland-wetland district;
    - b. The building cannot, as a practical matter, be located outside the wetland;
    - c. Such building is not designed for human habitation and does not exceed 500 sq. ft. in floor area; and
    - d. Only limited filling or excavating necessary to provide structural support for the building is authorized.
  3. The establishment of public and private parks and recreation areas, natural and outdoor education areas, historic and scientific areas, wildlife refuges, game bird and animal farms, fur animal farms, fish hatcheries, and public boat launching ramps and attendant access roads, provided that:
    - a. Any private development is used exclusively for the permitted use and the applicant has received a permit or license under ch. 29, Wis. Stats., where applicable;
    - b. Filling or excavating necessary for the construction or maintenance of public boat launching ramps or attendant access roads is allowed only where such construction or maintenance meets the criteria in section 11.10(c)3.c.1.a-d and;

    - a. The transmission and distribution facilities and railroad lines cannot, as a practical matter, be located outside the wetland;
    - b. Such construction or maintenance is done in a manner designed to minimize adverse impact upon the natural functions of the wetland enumerated in section 11.10(c)5.b.
4. PROHIBITED USES. [NR 115.04(4)] Any use not listed in sections 11.10(c)3.a., 11.10(c)3.b. or 11.10(c)3.c. is prohibited unless the wetland or portion of the wetland has been rezoned by amendment of this ordinance in accordance with section 11.10(c)5. of this ordinance and s. 59.69(5)(e), Wis. Stats.

5. REZONING OF LANDS IN THE SHORELAND-WETLAND DISTRICT. [NR 115.04(2)]

- a. For all proposed text and map amendments to the shoreland-wetland provisions of this ordinance, the appropriate office with the Department shall be provided with the following:
  1. A copy of every petition for a text or map amendment to the shoreland-wetland provisions of this ordinance, within 5 days of the filing of such petition with the county clerk. Such petition shall include a copy of the Wisconsin Wetland Inventory map adopted as part of this ordinance describing any proposed rezoning of a shoreland-wetland;
  2. Written notice of the public hearing to be held on a proposed amendment at least 10 days

prior to such hearing;

3. A copy of the Jefferson County Zoning Department's findings and recommendations on each proposed amendment within 10 days after the submission of those findings and recommendations to the county board; and
4. Written notice of the county board's decision on the proposed amendment within 10 days after it is issued.

b. A wetland, or a portion thereof, in the shoreland-wetland district shall not be rezoned if the proposed rezoning may result in a significant adverse impact upon any of the following:

1. Storm and flood water storage capacity;
2. Maintenance of dry season stream flow, the discharge of groundwater to a wetland, the recharge of groundwater from a wetland to another area, or the flow of groundwater through a wetland;
3. Filtering or storage of sediments, nutrients, heavy metals or organic compounds that would otherwise drain into navigable waters;
4. Shoreline protection against soil erosion;
5. Fish spawning, breeding, nursery or feeding grounds;
6. Wildlife habitat; or
7. Wetlands both within the boundary of designated areas of special natural resource interest and those wetlands which are in proximity to or have a direct hydrologic connection to such designated areas as defined in NR 103.04 which can be accessed at the following web site: [http://docs.legis.wisconsin.gov/code/admin\\_code/nr/100/103.pdf](http://docs.legis.wisconsin.gov/code/admin_code/nr/100/103.pdf).

c. If the Department notifies the county zoning agency that a proposed text or map amendment to the shoreland-wetland provisions of this ordinance may have a significant adverse impact upon any of the criteria listed in section 11.10(c)5.b. of this ordinance, that amendment, if approved by the county board, shall contain the following provision:

"This amendment shall not take effect until more than 30 days have elapsed after written notice of the county board's approval of this amendment is mailed to the Department of Natural Resources. During that 30-day period the Department of Natural Resources may notify the county board that it will adopt a superseding shoreland ordinance for the county under s. 59.692(6), Wis. Stats. If the Department does so notify the county board, the effect of this amendment shall be stayed until the s. 59.692(6) adoption procedure is completed or otherwise terminated."

(d) LAND DIVISION REVIEW AND SANITARY REGULATIONS. [NR 115.05(2)]

1. LAND DIVISION REVIEW. [NR 115.05(2)] The county shall review, pursuant to s. 236.45, Wis. Stats., all land divisions in shoreland areas which create 3 or more parcels or building sites of 5 acres each or less within a 5-year period. In such review all of the following factors shall be considered:

- a. Hazards to the health, safety or welfare of future residents.
- b. Proper relationship to adjoining areas.
- c. Public access to navigable waters, as required by law.
- d. Adequate stormwater drainage facilities.
- e. Conformity to state law and administrative code provisions.

2. PLANNED UNIT DEVELOPMENT (PUD) (MULTI-FAMILY DWELLING UNITS CUP). [NR 115.05(1)(a)4.]

a. **PURPOSE.** The Planned Unit Development is intended to permit smaller non-riparian lots where the physical layout of the lots is so arranged as to better assure the control of pollution and preservation of ground cover than would be expected if the lots were developed with the normal lot sizes and setbacks and without special conditions placed upon the Planned Unit Development at the time of its approval. A condition of all Planned Residential Unit Development is the preservation of certain open space, preferably on the shoreland, in perpetuity.

b. **REQUIREMENTS FOR PLANNED UNIT DEVELOPMENT.** The county board may at its discretion, upon its own motion or upon petition, approve a Planned Unit Development Overlay District upon finding, after a public hearing, that all of the following facts exist:

1. **Area.** The area proposed for the Planned Unit Development shall be at least 2 acres in size or have a minimum of 200 feet of frontage on a navigable water.
2. **Lots.** Any proposed lot in the Planned Unit Development that does not meet the minimum size standards of Section 11.10(e)2. and 11.10(e)3. shall be a non-riparian lot.
3. **Lot sizes, widths, setbacks, and vegetation removal.** When considering approval of a Planned Unit Development the governing body shall consider whether proposed lot sizes, widths, and setbacks are of adequate size and distance to prevent pollution or erosion along streets or other public ways and waterways. Increased shoreland setbacks shall be a condition of approval as a way of minimizing adverse impacts of development. Shore cover provisions in Section 11.10(g)2. shall apply except that maximum width of a lake frontage opening shall be 100 feet and minimum vegetative buffer depth shall be increased to offset the impact of the proposed development.

3. SANITARY REGULATIONS. [NR 115.05(3) & Jefferson County Private Sewage System Ordinance #12] Each county shall adopt sanitary regulations for the protection of health and the preservation and enhancement of water quality.

a. Where public water supply systems are not available, private well construction shall be required to conform to ch. NR 812, Wis. Adm. Code.

b. Where a public sewage collection and treatment system is not available, design and construction of private on-site waste treatment system shall, prior to July 1, 1980, be required to comply with ch. SPS Comm 383, and after June 30, 1980 be governed by a private sewage system ordinance adopted by the county under s. 59.70(5), Wis. Stats.

(e) MINIMUM LOT SIZE. [NR 115.05(1)]

1. **PURPOSE** . [NR115.05(1)(a)] Minimum lot sizes in the shoreland area shall be established to afford protection against danger to health, safety and welfare, and protection against pollution of the adjacent body of water. In calculating the minimum area or width of a lot, the beds of navigable waters shall not be included.

2. **'SEWERED LOTS'** . [NR 115.05(1)(a)1.] **MINIMUM AREA AND WIDTH FOR EACH LOT.** The minimum lot area shall be 10,000 sq. ft. and the minimum average lot width shall be 65 feet. Minimum lot width will be measured by having a building envelope for at the placement of all structures that meets the minimum lot width and depth for that zoning district.

3. **'UNSEWERED LOTS.'** [NR 115.05(1)(a)2.] **MINIMUM AREA AND WIDTH FOR EACH LOT.** The minimum lot area shall be 20,000 sq. ft. and the minimum average lot width shall be 100 feet. Minimum lot width will be measured by having a building envelope for at the placement of all structures that meets the minimum lot width and depth for that zoning district.

4. **SUBSTANDARD LOTS** [NR115.05(1)(A)3]. A legally created lot or parcel that met minimum area and minimum average width requirements when created, but does not meet current lot size requirements, may be used as a building site if all of the following apply:

a. The substandard lot or parcel was never reconfigured or combined with another lot or parcel by plat, survey or consolidation by the owner into one property tax parcel.

b. The substandard lot or parcel has never been developed with one or more of its structures placed partly upon an adjacent lot or parcel.

c. The substandard lot or parcel is developed to comply with all other ordinance requirements.

Note: The intent of this provision is to allow lots that were legally created that currently do not meet the minimum lot width and area requirements to be considered a building site provided all ordinance requirements can be met. Substandard lots that have been reconfigured by a certified survey map or consolidated into one legal description with the Register of Deeds, which result in a larger (closer to conforming) lot should be allowed to be utilized as a building site. Additionally, lots that have a legal description for each substandard lot on record with the Register of Deeds, but have one tax parcel number assigned by the Real Property Lister or Assessor for taxing assessing purposes, should be considered separate building sites and should not be considered consolidated. Lots that have had development over the lot lines should be combined with a legal description and recorded with a new deed prior to new development occurring. [Ord. No. 2017-09, 08-08-2017]

5. **OTHER SUBSTANDARD LOTS**. Except for lots which meet the requirements of section 11.10(e)4., a building permit for the improvement of a lot having lesser dimensions than those stated in sections 11.10(e)2. and 11.10(e)3. shall be issued only if a variance is granted by the board of adjustment.

(f) **BUILDING SETBACKS**. [NR 115.05(1)(b)] Permitted building setbacks shall be established to conform to health, safety and welfare requirements, preserve natural beauty, reduce flood hazards and avoid water pollution.

1. **SHORELAND SETBACKS**. [NR115.05(1)(b)1.] Unless exempt under 11.10(f)1.a., or reduced under 11.10(f)2., a setback of 75 feet from the ordinary high-water mark of any navigable waters to the nearest part of a building or structure shall be required for all buildings and structures.

a. **EXEMPT STRUCTURES** [NR 115.05(1)(b)1m. and s. 59.692(lk)(a)6, Wis. Stats.] All of the following structures are exempt from the shoreland setback standards in subd. 11.10(f)1 [Ord. 2017-09, 08-08-2017]:

1. Boathouses located entirely above the ordinary high-water mark and entirely within the access and viewing corridor that do not contain plumbing and are not used for human habitation and meet the following conditions:
  - a. The construction or placing of a boathouse below the ordinary high-water mark of any navigable waters is prohibited.
  - b. The use of a boathouse for human habitation is prohibited.
  - c. Boathouses shall be designed solely for the storage of boats and related equipment and there shall be no more than one boathouse per lot.
  - d. A boathouse shall not exceed four hundred (400) square feet in area.
  - e. The roof of a boathouse may be used as a deck provided that:
    - (1) The boathouse has a flat roof.
    - (2) The roof has no side walls or screens.
    - (3) The roof has a railing that meets the Department of Safety and Professional Services standards. [Ord. No. 2017-09, 08-08-2017]
  - f. A boathouse must be located within the viewing and access corridor described in Section 11.10 (f)1.a.1.
  - g. Earth tone colors shall be required for all exterior surfaces of a boathouse.

- h. Must meet the provisions of Jefferson County Floodplain Ordinance No. 14. Boathouses are not permitted in the floodway.
  - i. One boathouse is permitted on a lot as an accessory structure.
  - j. The main door shall face the water.
  - k. Patio doors, fireplaces and other features inconsistent with the use of the structure exclusively as a boathouse are not permitted.
2. Open sided and screened structures such as gazebos, decks, patios and screen houses in the shoreland setback area that satisfy the requirements in s. 59.692(1v), Stats. and meet the following conditions:
    - a. The part of the structure that is nearest to the water is located at least 35 feet landward from the ordinary-high water mark.
    - b. The floor area of all the structures in the shoreland setback area will not exceed 200 square feet.
    - c. The structure that is the subject of the request for special zoning permission has no sides or has open or screened sides.
    - d. The county must approve a plan that will be implemented by the owner of the property to preserve or establish a vegetative buffer zone that covers at least 70% of the half of the shoreland setback area that is nearest to the water.
    - e. An enforceable affidavit must be filed with the register of deeds prior to construction acknowledging the limitations on vegetation.

The statutory requirements under s. 59.692(1v) which require the establishment of a vegetative buffer for the construction of open sided structures is not superseded by s. 59.692(1f)(a).

3. Fishing rafts that are authorized on the Wolf River and Mississippi River under s. 30.126, Stats.
4. Broadcast signal receivers, including satellite dishes or antennas that are one meter or less in diameter and satellite earth station antennas that are 2 meters or less in diameter.
5. Utility transmission and distribution lines, poles, towers, water towers, pumping stations, well pumphouse covers, private on-site wastewater treatment systems that comply with ch. SPS Comm 383, and other utility structures that have no feasible alternative location outside of the minimum setback and that employ best management practices to infiltrate or otherwise control storm water runoff from the structure.
6. Walkways, stairways or rail systems that are necessary to provide pedestrian access to the shoreline and are a maximum of 60-inches in width. The stairway, walkway and lift must be located within the access and viewing corridor unless such location is not feasible or it is determined by Zoning Department staff that locations outside the access and viewing corridor better serve the intent of this ordinance.
7. Walkways, stairways, and lifts shall be designed in a matter that does not cause erosion and will minimize storm water runoff. Vegetation shall be established upon completion and shall be maintained, to stabilize all land disturbed during the construction or placement of the walkway, stairway, or lift.
8. Devices or systems used to treat runoff from impervious surfaces. [Ord. No. 2017-09, 08-08-2017]

b. EXISTING EXEMPT STRUCTURES. [s. 59.692(1k)(a)2m(bm), Stats.] Existing exempt structures may be maintained, repaired, replaced, restored, rebuilt and remodeled provided the activity does not expand the footprint and does not go beyond the three-dimensional building envelope of the existing structure.

Counties may allow expansion of a structure beyond the existing footprint if the expansion is necessary to comply with applicable state or federal requirements.

Note: Section 59.692(1k)(a)2m, Stats., prohibits counties from requiring any approval or imposing any fee or mitigation requirement for the activities specified in section 11.10(f)(2). However, it is important to note that property owners may be required to obtain permits or approval and counties may impose fees under ordinances adopted pursuant to other statutory requirements, such as floodplain zoning, general zoning, sanitary codes, building codes or stormwater erosion control. [Ord. No. 2017-09, 08-08-2017]

2. REDUCED PRINCIPAL STRUCTURE SETBACK. [s. 59.692(1n), Stats.] A setback less than the 75' required setback from the ordinary high water mark shall be permitted for a proposed principal structure and shall be determined as follows:

a. Where there are existing principal structures in both directions, the setback shall equal the average of the distances the two existing principal structures are set back from the ordinary high water mark provided all of the following are met:

1. Both of the existing principal structures are located on an adjacent lot to the proposed principal structure.

2. Both of the existing principal structures are located within 250' of the proposed principal structure and are the closest structure.

3. Both of the existing principal structures are located less than 75' from the ordinary high water mark.

4. The average setback shall not be reduced to less than 35' from the ordinary high water mark of any navigable water.

b. Where there is an existing principal structure in only one direction, the setback shall equal the average of 75 feet and the distance that the existing structure is set back from the ordinary high-water mark provided all of the following are met:

1. The existing principal structure is located on the adjacent lot to the proposed principal structure.

2. The existing principal structure is located within 250' of the proposed principal structure and is the closest structure.

3. The existing principal structure is located less than 75' from the ordinary high water mark.

4. The average setback shall not be reduced to less than 35' from the ordinary high water mark of any navigable water.

[Ord. No. 2017-09, 08-08-2017]

3. FLOODPLAIN STRUCTURES. [NR 115.05(1)(b)2.] Buildings and structures to be constructed or placed in a floodplain shall be required to comply with the Jefferson County Floodplain Ordinance Chapter 14.

(g) VEGETATION. [NR 115.05(1)(c)]

1. PURPOSE. [NR 115.05(1)(c)1.] To protect natural scenic beauty, fish and wildlife habitat, and water quality, Jefferson County shall regulate removal of vegetation in shoreland areas, consistent with the following: The County shall establish ordinance standards that consider sound forestry and soil conservation practices and the effect of vegetation removal on water quality, including soil erosion, and the flow of effluents, sediments and nutrients.

2. ACTIVITIES ALLOWED WITHIN A VEGETATIVE BUFFER ZONE. [NR 115.05(1)(c)2.] To protect water quality, fish and wildlife habitat and natural scenic beauty, and to promote preservation and restoration of native vegetation, the county ordinance shall designate land that extends from the ordinary high water mark to a minimum of 35 feet inland as a vegetative buffer zone and prohibit removal of vegetation in the vegetative buffer zone except as follows:

a. The county may allow routine maintenance of vegetation.

b. The county may allow removal of trees and shrubs in the vegetative buffer zone to create access and viewing corridors. Pursuant to s. 59.692(1f)(b), Stats., the viewing corridor may be 35 feet wide for every 100 feet of shoreline frontage. The viewing corridor may run contiguously for the entire maximum width of shoreline frontage owned.

c. The county may allow removal of trees and shrubs in the vegetative buffer zone on a parcel with 10 or more acres of forested land consistent with “generally accepted forestry management practices” as defined in NR 1.25(2)(b), Wis. Adm. Code, and described in Department publication “Wisconsin Forest Management Guidelines” (publication FR-226), provided that vegetation removal be consistent with these practices.

d. The county may allow removal of vegetation within the vegetative buffer zone to manage exotic or invasive species, damaged vegetation, vegetation that must be removed to control disease or vegetation creating an imminent safety hazard, provided that any vegetation removed be replaced by replanting in the same area as soon as practicable.

e. The county may authorize by permit additional vegetation management activities in the vegetative buffer zone. The permit issued under this paragraph shall require that all management activities comply with detailed plans approved by the county and designed to control erosion by limiting sedimentation into the waterbody; improve the plant community by replanting in the same area; and maintain and monitor the newly restored area. The permit also shall require an enforceable restriction to preserve the newly restored area.

[Ord. No. 2017-09, 08-08-2017]

3. CUTTING MORE THAN 35 FEET INLAND. From the inland edge of the 35 foot area to the outer limits of the shoreland, the cutting of vegetation shall be allowed when accomplished using accepted forest management and soil conservation practices which protect water quality.

(h) FILLING, GRADING, LAGOONING, DREDGING, DITCHING AND EXCAVATING. [NR115.05(1)(d)] Filling, grading, lagooning, dredging, ditching and excavating may be permitted only in accordance with the provisions of s. NR 115.04, the requirements of ch. 30, Stats., and other state and federal laws where applicable, and only if done in a manner designed to minimize erosion, sedimentation and impairment of fish and wildlife habitat and natural scenic beauty.

1. GENERAL STANDARDS. Filling, grading, lagooning, dredging, ditching or excavating which does not require a permit under section 11.10(h)2. may be permitted in the shoreland area provided that:

a. It is done in a manner designed to minimize erosion, sedimentation and impairment of fish and wildlife habitat.

b. Filling, grading, lagooning, dredging, ditching or excavating in a shoreland wetland district meets the requirements of sections 11.10(c)3.b. and 11.10(c)3.c. of this ordinance.

c. All applicable federal, state and local authority is obtained in addition to a permit under this ordinance.

d. Any fill placed in the shoreland area is protected against erosion by the use of riprap, vegetative cover or a bulkhead.

2. PERMIT REQUIRED. A permit is required:

a. For any filling or grading of any area which is within 300 feet landward of the ordinary highwater mark of navigable water and which has surface drainage toward the water and on which there is either:

1. Any filling or grading on slopes of more than 20%.
2. Filling or grading of more than 1,000 sq. ft. on slopes of 12% - 20%.
3. Filling or grading of more than 2,000 sq. ft. on slopes less than 12%.
4. Filling, grading or excavating within 35 ft. of the OHWM, on all slopes.

b. For any construction or dredging commenced on any artificial waterway, canal, ditch, lagoon, pond, lake or similar waterway which is within 300 feet landward of the ordinary highwater mark of a navigable body of water or where the purpose is the ultimate connection with a navigable body of water.

3. PERMIT CONDITIONS. In granting a permit under section 11.10(h)2., the County shall attach the following conditions, where appropriate, in addition to those provisions specified in sections 11.10(o)3.c. or 11.10(o)3.d.

a. The smallest amount of bare ground shall be exposed for as short a time as feasible.

b. Temporary ground cover (such as mulch or jute netting) shall be used and permanent vegetative cover shall be established.

c. Diversion berms or bales, silting basins, terraces, filter fabric fencing, and other methods shall be used to prevent erosion.

d. Lagoons shall be constructed to avoid fish trap conditions.

e. Fill shall be stabilized according to accepted engineering standards.

f. Filling shall comply with any local floodplain zoning ordinance and shall not restrict a floodway or destroy the flood storage capacity of a floodplain.

g. Channels or artificial watercourses shall be constructed with side slopes of two (2) units horizontal distance to one (1) unit vertical or flatter which shall be promptly vegetated, unless bulkheads or riprap are provided.

(i) IMPERVIOUS SURFACE STANDARDS. [NR 115.05(1)(e)]

1. PURPOSE. Establish impervious surface standards to protect water quality and fish and wildlife habitat and to protect against pollution of navigable waters. County impervious surface standards shall apply to the construction, reconstruction, expansion, replacement or relocation of any impervious surface on a riparian lot or parcel and any nonriparian lot or parcel that is located entirely within 300 feet of the ordinary high-water mark of any navigable waterway.

2. CALCULATION OF PERCENTAGE OF IMPERVIOUS SURFACE. [NR 115.05(1)(e)1.] Percentage of impervious surfaces shall be calculated by dividing the surface area of the existing and proposed impervious surfaces on the portion of a lot or parcel that is within 300 feet of the ordinary high-water mark by the total surface area of that lot or parcel, and multiplied by 100. Impervious surfaces described in 11.10(i)5 shall be excluded from the calculation of impervious surface on the lot or parcel. If an outlot lies between the ordinary high water mark and the developable lot or parcel and both are in common ownership, the lot or parcel and the outlot shall be considered one lot or parcel for the purposes of calculating the percentage of impervious surface.

Note: For properties that have been "condominiumized" the impervious surface calculations apply to the entire property. The property is still under one legal description and the proposed expansion to a unit is not the only impervious surface calculated since the regulation states lot or parcel and not a unit. It will be important to remember also that mitigation applies to the property as a whole and not just to the portion of the frontage that might be in front of the unit impacted.

3. GENERAL IMPERVIOUS SURFACE STANDARD. [NR 115.05(1)(e)2.] Except as allowed in sections 4 through 5 allow up to 15% impervious surface on the portion of a lot or parcel that is within 300 feet of

the ordinary high-water mark.

4. MAXIMUM IMPERVIOUS SURFACE. [NR 115.05(1)(e)3.] A property may exceed the impervious surface standard under 3 provided the following standards are met:

a. For properties where the general impervious surface standard applies under section 11.10(i)(3), a property owner may have more than 15% impervious surface but not more than 30% impervious surface on the portion of a lot or parcel that is within 300 feet of the ordinary high-water mark.

b. For properties that exceed the standard under 11.10(i)3 but do not exceed the maximum standard under 11.10(i)4, a permit can be issued for development with a mitigation plan that meets the standards found in section 11.10(l).

5. TREATED IMPERVIOUS SURFACES. [NR115.05(1)(e)3m. and s. 59.692(1k)(a)1.e.), Wis. Stats.] Impervious surfaces that can be documented to show they meet either of the following standards shall be excluded from the impervious surface calculations under section 11.10(i)3:

a. The impervious surface is treated by devices such as stormwater ponds, constructed wetlands, infiltration basins, rain gardens, bio-swales or other engineered systems.

b. The runoff from the impervious surface discharges to an internally drained pervious area that retains the runoff on or off the parcel and allows infiltration into the soil.

c. To qualify for the statutory exemption, property owners shall submit a complete permit application, that is reviewed and approved by the county. The application shall include the following:

1. Calculations showing how much runoff is coming from the impervious surface areas.
2. Documentation that the runoff from the impervious surface is being treated by a proposed treatment system, treatment device or internally drained area.
3. An implementation schedule and enforceable obligation on the property owner to establish and maintain the treatment system, treatment devices or internally drained area. The enforceable obligations shall be evidenced by an instrument recorded in the office of the Register of Deeds prior to the issuance of the permit.

Note: The provisions in section 5 are an exemption from the impervious surface standards and as such should be read and construed narrowly. As such, a property owner is entitled to this exemption only when the runoff from the impervious surface is being treated by a sufficient (appropriately sized) treatment system, treatment device or internally drained. Property owners that can demonstrate that the runoff from an impervious surface is being treated consistent with section 11.10(i)5. will be considered pervious for the purposes of implementing the impervious surface standards in this ordinance. If a property owner or subsequent property owner fails to maintain the treatment system, treatment device or internally drained area, the impervious surface is no longer exempt under section 11.10(i)5.

6. EXISTING IMPERVIOUS SURFACES. [NR 115.05(1)(e)4.] For existing impervious surfaces that were lawfully placed when constructed but that do not comply with the impervious surface standard in section 3 or the maximum impervious surface standard in section 4, the property owner may do any of the following:

- a. maintain and repair the existing impervious surfaces;
- b. replace existing impervious surfaces with similar surfaces within the existing building envelope;
- c. relocate or modify an existing impervious surface with similar or different impervious surface, provided that the relocation or modification does not result in an increase in the percentage of impervious surface

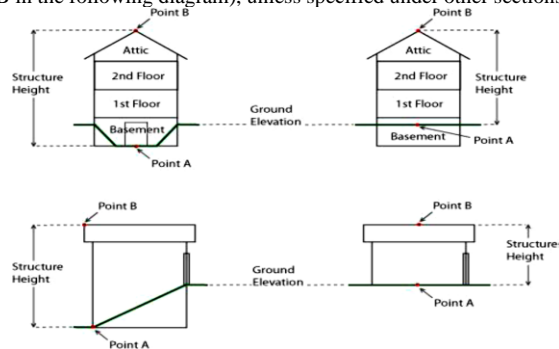

d. that existed on the effective date of the county shoreland ordinance, and the impervious surface meets the applicable setback requirements in s. Wis. Admin. Code NR 115.05 (1) (b).

Note: The impervious surface standards in this ordinance shall not be construed to supersede other provisions in the county shoreland ordinance. All of the provisions of the county shoreland ordinance still apply to new or existing development.

(j) **HEIGHT.** [NR 115.05(1)(f)] To protect and preserve wildlife habitat and natural scenic beauty, on or after February 1, 2010, Jefferson County does not permit any construction that results in a structure taller than 35 feet within 75 feet of the ordinary high-water mark of any navigable waters.

1. Structure height is the measurement of the vertical line segment starting at the lowest point of any exposed wall and it's intersect with the ground (Point A in the following diagram) to a line horizontal to the highest point of a structure (Point B in the following diagram), unless specified under other sections of this code.

(k) **NONCONFORMING USES AND STRUCTURES.** [NR 115.05(1)(g)]

1. **DISCONTINUED NONCONFORMING USE.** [NR 115.05(1)(g)3.] If a nonconforming use is discontinued for a period of 12 months, any future use of the building, structure or property shall conform to the ordinance.

2. **MAINTENANCE, REPAIR, REPLACEMENT OR VERTICAL EXPANSION OF NONCONFORMING STRUCTURES.** [s. 59.692(1k)(a)1.b. and d., Wis. Stats.] An existing structure that was lawfully placed when constructed but that does not comply with the required shoreland setback may be maintained, repaired, replaced, restored, rebuilt or remodeled if the activity does not expand the footprint of the nonconforming structure. Further, an existing structure that was lawfully placed when constructed but that does not comply with the required shoreland setback may be vertically expanded unless the vertical expansion would extend more than 35 feet above grade level. Counties may allow expansion of a structure beyond the existing footprint if the expansion is necessary to comply with applicable state or federal requirements. [Ord. No. 2017-09, 08-08-2017]

Note: Section 59.692(1k)(a)2, 4 and (b) prohibits counties from requiring any approval or imposing any fee or mitigation requirement for the activities specified in section 11.10(k)2. However, it is important to note that property owners may be required to obtain permits or approvals and counties may impose fees under ordinances adopted pursuant to other statutory requirements, such as floodplain zoning, general zoning, sanitary codes, building codes, or stormwater erosion control. [Ord. No. 2017-09, 08-08-2017]

Note: NR115.05(1)(b)1m lists structures that are exempt from the shoreland setback. These structures are considered conforming structures and are not considered nonconforming structures. Structures that were granted

variances or illegally constructed structures are not considered nonconforming structures.

3. LATERAL EXPANSION OF NONCONFORMING PRINCIPAL STRUCTURE WITHIN THE SETBACK. [NR 115.05(1)(g)5.] An existing principal structure that was lawfully placed when constructed but that does not comply with the required building setback per sections 11.10(f)1. and 11.10(f)2. may be expanded laterally, provided that all of the following requirements are met:

- a. The use of the structure has not been discontinued for a period of 12 months or more if a nonconforming use.
- b. The existing principal structure is at least 35 feet from the ordinary high-water mark.
- c. lateral expansions are limited to a maximum of 200 square feet over the life of the structure. No portion of the expansion may be any closer to the ordinary high-water mark than the closest point of the existing principal structure.
- d. The county shall issue a permit that requires a mitigation plan that shall be approved by the county and implemented by the property owner by the date specified in the permit. The mitigation plan shall meet the standards found in section 11.10(l).
- e. All other provisions of the shoreland ordinance shall be met.

4. EXPANSION OF A NONCONFORMING PRINCIPAL STRUCTURE BEYOND SETBACK. [NR 115.05(1)(g)5m.] An existing principal structure that was lawfully placed when constructed but that does not comply with the required building setback under sections 11.10(f)1., may be expanded horizontally, landward or vertically provided that the expanded area meets the building setback requirements per section 11.10(f)1. and that all other provisions of the shoreland ordinance are met. A mitigation plan is not required solely for expansion under this paragraph, but may be required per section 11.10(i).

5. RELOCATION OF NONCONFORMING PRINCIPAL STRUCTURE. [NR 115.05(1)(g)6.] An existing principal structure that was lawfully placed when constructed but that does not comply with the required building setback per sections 11.10(f)1. and 11.10(f)2. may be relocated on the property provided all of the following requirements are met:

- a. The use of the structure has not been discontinued for a period of 12 months or more if a nonconforming use.
- b. The existing principal structure is at least 35 feet from the ordinary high-water mark.
- c. No portion of the relocated structure is located any closer to the ordinary high-water mark than the closest point of the existing principal structure.
- d. The county determines that no other location is available on the property to build a principal structure of a comparable size to the structure proposed for relocation that will result in compliance with the shoreland setback requirement per section 11.10(f)1.
- e. The county shall issue a permit that requires a mitigation plan that shall be approved by the county and implemented by the property owner by the date specified in the permit. The mitigation plan shall meet the standards found in section 11.10(l). include enforceable obligations of the property owner to establish or maintain measures that the county determines are adequate to offset the impacts of the permitted expansion on water quality, near-shore aquatic habitat, upland wildlife habitat and natural scenic beauty. The mitigation measures shall be proportional to the amount and impacts of the replaced or relocated structure being permitted. The obligations of the property owner under the mitigation plan shall be evidenced by an instrument recorded in the office of the County Register of Deeds.
- f. All other provisions of the shoreland ordinance shall be met.

6. MAINTENANCE, REPAIR, REPLACEMENT OR VERTICAL EXPANSION OF STRUCTURES THAT WERE AUTHORIZED BY VARIANCE. [s. 59.692(1k)(a)2. and (a)4.] A structure of which any part has been authorized to be located within the shoreland setback area by a variance granted before July 13, 2015, may be maintained, repaired, replaced, restored, rebuilt or remodeled if the activity does not expand the footprint of the authorized structure. Additionally, the structure may be vertically expanded unless the vertical expansion would extend more than 35 feet above grade level. Counties may allow expansion of a structure beyond the existing footprint if the expansion is necessary to comply with applicable state or federal requirements.

Note: Section 59.692(1k)(a)2. Prohibits counties from requiring any approval or imposing any fee or mitigation requirement for the activities specified in section 12. However, it is important to note that property owners may be required to obtain permits or approval and counties may impose fees under ordinances adopted pursuant to other statutory requirements, such as floodplain zoning, general zoning, sanitary codes, building codes, or stormwater erosion control. [Ord. No. 2017-09, 08-08-2017]

7. MAINTENANCE, REPAIR, REPLACEMENT OF BUILDINGS OR STRUCTURES WHICH ARE IN VIOLATION OF A SHORELAND ZONING STANDARD OR THE JEFFERSON COUNTY ZONING ORDINANCE AND HAVE BEEN IN PLACE FOR MORE THAN 10 YEARS [S. 59.692(1k)(a)2.c., Wis. Stats.] A structure that is in violation of a shoreland zoning standard or the Jefferson County Zoning Ordinance and has been in place for more than ten years may be maintained, repaired, replaced, restored, rebuilt or remodeled if the activity does not expand the footprint of the structure vertically or laterally. [Ord. No. 2018-16, 10-09-2018]

(l) MITIGATION. [s. 59.692(1v), Stats., NR 115.05 (1)(e)3., (g)5., (g)6.] When the county issues a permit requiring mitigation under sections 11.10(f)1.a.2., 11.10(i)4., 11.10(k)5., 11.10(k)3., the property owner must submit a complete permit application, that is reviewed and approved by the county. The application shall include the following:

1. A site plan that describes the proposed mitigation measures.

a. The site plan shall be designed and implemented to restore natural functions lost through development and human activities.

b. The mitigation measures shall be proportional in scope to the impacts on water quality, near-shore aquatic habitat, upland wildlife habitat, natural scenic beauty and meet the purpose and intent as stated in Section 11.10(a)3.

2. An implementation schedule and enforceable obligation on the property owner to establish and maintain the mitigation measures.

a. The enforceable obligations shall be evidenced by an instrument recorded in the office of the Register of Deeds.

3. Mitigation Plan. Install stormwater control systems or shoreland mitigation practice that are designed to contain the 2 year 24 hour rainfall event for impervious areas, meet Section 11.10(i) Impervious Surface Standards and designed by an engineer or landscaper/landscape architect. Mitigation plan with recorded maintenance agreement shall include options such as:

a. Mitigation plan requirements: The application shall include a scaled plot plan of the lot, including the following information:

1. Location of all existing and proposed structures, including paths, stairways, retaining walls, decks, patios, vegetative cover, etc. with accurate distances shown between the structures and all property lines.
2. Location of any areas of existing and proposed land disturbance.
3. Location of septic and well facilities.
4. Location of the viewing and access corridor.
5. Location of parking areas and driveways.
6. Location of ordinary high-water mark and any wetland areas.
7. Maps showing the existing and proposed topography and slope of the property.
8. Impervious surface calculations.
9. A minimum of four photos of the property. These photos shall include a photo taken from the water, along the shoreline and from the principal structure. If necessary, the Planning and Zoning Department may require additional photos and/or a site inspection of the property.
10. Properties which include flood hazard areas shall be required to submit documentation

showing the base flood elevation and its location on the property. Note: This may require a licensed surveyor to provide elevation data on the plan.

b. Mitigation options:

1. Shoreland Buffer Restoration of at least 35 feet landward side from the ordinary high water mark.
  - a. A plan for the restoration of the shoreland buffer is required and shall include:

3) Application and issuance: Applications for zoning permits shall be made on forms furnished by the Zoning Administrator. Permits shall be issued if the application and information obtained through field inspections, if any, causes the Administrator to conclude that the proposed use will comply with all applicable regulations.

4) Fees: A fee set pursuant to Section 11.13 shall be submitted to the Zoning Administrator when application is made for a land use permit.

5) Publication: The Zoning Administrator shall cause publication to be made in the official newspaper of Jefferson County of pertinent identifying information on each zoning permit issued. Such publications shall be made each month within the last ten days of the month.

3) Sanitary and Zoning Permits for Conditional Uses and Variances: Issuance by the Planning and Zoning Committee for a conditional use approval or issuance by the Board of Adjustment of a variance shall not relieve the applicant of the obligation to obtain sanitary and zoning permits. Use, arrangement or construction not in full accord with that authorized shall be deemed a violation of this Ordinance.

5) Permits shall be placed in a prominent location on the premises during construction, alteration or moving.

6) Permits shall lapse and become void if operations described in the permit are not completed within two years of issuance of the permit, except that the Zoning Administrator may grant an extension for a period not to exceed one year upon showing of a valid cause.

**(c) Amendment Procedures.** Amendments: The Jefferson County land use ordinances are adopted by the County Board and may be amended by the County Board. State law prescribes how amendments are processed. Five major steps occur:

1. A hearing is held by the County Planning and Zoning Committee;
2. The Planning and Zoning Committee reviews the proposed amendment and makes recommendations to the County Board;
3. The County Board votes on the proposal;
4. In the case of amendments to general zoning outside shoreland and floodplain areas, the affected town board can veto an amendment adopted by the County Board;
5. The amendment is published and recorded.

In addition, persons owning lands proposed to be subject to zoning amendment or owners of abutting property can file a "protest" which requires a three-fourths vote of the County Board to approve the proposed amendment. All of these procedures are subject to detailed statutory rules of §59.69 Wisconsin Statutes, which are adopted herein by

reference. The Zoning Administrator shall create and maintain a current summary of the statutory procedures for interested persons.

**6. Standards for Rezoning from the A-1 Exclusive Agricultural and N Natural Resource Districts:** Land that is zoned A-1 Exclusive Agricultural or N Natural Resource may be rezoned to a zoning district that is not a certified farmland preservation zoning district if all of the following additional criteria are met (some of which are based on §91.48 of the Wisconsin Statutes): [am. 3/13/12, Ord. 2011-28]

- (a) The land is better suited for a use not allowed in the A-1 or N district. [cr. 3/13/12, Ord. 2011-28]
- (b) The rezoning is consistent with the County Comprehensive Plan. [cr. 3/13/12, Ord. 2011-28]
- (c) The rezoning is substantially consistent with the Jefferson County Agricultural Preservation and Land Use Plan. [cr. 3/13/12, Ord. 2011-28]
- (d) The rezoning will not substantially impair or limit current or future agricultural use of surrounding parcels of land that are zoned for or legally restricted to agricultural use. [cr. 3/13/12, Ord. 2011-28]
- (e) There will be adequate public facilities to serve the proposed and potential land use changes that would be enabled by the rezoning. [re-lettered & am. 3/13/12, Ord. 2011-28]
- (f) The burdens on local government for providing the needed services to the proposed and potential land use changes that would be enabled by the rezoning are reasonable. [re-lettered & am. 3/13/12, Ord. 2011-28]
- (g) The development will not cause unreasonable air or water pollution, soil erosion, or adverse effects on valued natural areas. [re-lettered & am. 3/13/12, Ord. 2011-28]
- (h) The soil productivity rating has been considered in the location of the area proposed for rezoning. [re-lettered & am. 3/13/12, Ord. 2011-28]
- (i) The remaining A-1 parcel shall front on a public road for a minimum distance of at least sixty-six (66) feet. Access to the lot shall be provided within this frontage. [cr. 3/13/12, Ord. 2011-28]

**(d) Board of Adjustment.**

1. Appointment and Term: The Board shall consist of three members and two alternate members who shall be appointed for staggered three-year terms, commencing on July 1, by the County Administrator. Vacancies shall be filled in like manner for the unexpired term of any member whose term becomes vacant. Members shall all reside in the County and outside incorporated cities and villages and no two members shall reside in the same town. [Ord. No. 2018-13, 08/13/2018]

2. Operating Rules.

a. The Board shall choose its own chair, vice chair and secretary.

b. The Board shall meet at the call of the chair or at such other times as the board may determine.

c. The Board shall comply with all requirements of the Wisconsin Open Meetings Law in the conduct of the business before it. The nature of the Board's proceedings is quasi-judicial. The Board may, therefore, deliberate in closed session, after a hearing on the matter, provided legal requirements are complied with. To the extent practicable, Roberts Rules of Order and the Jefferson County Board of Supervisors Rules of Order shall be followed. [Ord. No. 2018-13, 08/13/2018]

d. The Board may conduct site inspections of premises and surrounding areas which are the subject of matters before the Board, provided that when the Board as a unit or individual members are engaged in such site inspections,

they shall not allow interested parties to present arguments or advocacy materials. Such arguments and materials shall be received only at hearings before the Board.

e. The Board shall conduct a public hearing on all appeals and variance matters before it and shall cause a class 2 notice under Chapter 985 of the Wisconsin Statutes to be published and shall give due notice of the hearing to parties in interest. Any party may appear in person or by attorney at such hearing. The chair may administer oaths to parties testifying and may compel attendance of witnesses.

1) Due notice to parties in interest shall mean that the Zoning Administrator will mail, by ordinary postage, reasonable advance notice of all hearings and meetings on any pending matter to the applicant, to owners of record of properties which are located outside cities and villages and adjacent to the parcel involved in the application, to the clerk of the town where the property is located, to the clerk of any other town or any other village located within 1.5 miles of the property involved in the application, and to other parties who have made known to the office their specific interest in the matter and their request to receive such notices. Failure of the office to accomplish such provision of notice shall not invalidate or prejudice the proceedings, provided the Board concludes that reasonable efforts were made or that the parties who subsequently complain of not having been sent or of not receiving notice did, in fact, know of the proceedings and had reasonable opportunity to attend or be represented, or to convey their views prior to the Board's decision. [11/1/09, Ord. 2009-19]

2) Failure to mail notices to all joint owners of a property shall not constitute noncompliance with these requirements so long as at least one joint owner was mailed a notice.

f. All testimony before the Board by persons other than Board members and written or documentary evidence or material pertaining to matters before the Board shall be received at the hearings conducted by the Board; provided, however, that the content of relevant ordinance or statutory materials shall be deemed to be before the Board in all cases and need not be entered into the record. All parties in interest shall be afforded reasonable opportunity to comment on all materials or information so received. Board members who are in possession of facts which may have a bearing on the matter before the Board shall enter same into the record of the hearing and opportunity shall be allowed for comment on such entries.

g. If, following the close of a hearing, the Board finds it necessary or desirable to receive additional information, evidence or arguments which may have a bearing upon the Board's decision, it shall reconvene a public hearing, with notice given in the same manner as for the initial hearing, for the purpose of so doing.

h. The Board shall deliberate on matters before it. The concurring vote of a majority of the Board shall be necessary to approve any appeal or variance before the Board. The vote of each member on each matter decided by the Board shall be recorded in the minutes. If a member is absent or if a member fails to vote, such fact shall similarly be recorded. The minutes of the Board shall show the Board's decisions and the votes of members thereon. Each decision of the Board shall be accompanied by written reasons in support of the decision, which written statement shall be signed or acknowledged by the members and entered into the minutes.

i. All decisions by the Board shall be made in accord with the standards of the ordinance. The Board shall decide all matters before it within a reasonable time.

j. The Board shall cause complete records to be kept of its examinations on matters before it, of public hearings, site inspections, decisions and other official actions, which shall be immediately filed in the County Zoning Office and shall be a public record. Written minutes of the Board shall constitute the official record of Board proceedings. Public hearings shall be tape recorded and the records shall be maintained for no less than ninety days. The appellant or applicant may request the services of a reporter and shall pay the costs of such services.

k. The Board may adopt procedural rules not in conflict with this ordinance or state law.

**(e) Powers of the Zoning Board of Adjustment: Administrative Appeals.**

**1. Appealable matters.**

a. Decisions by the Zoning Administrator which consist of interpretations of the terms of Jefferson County zoning ordinances and which are made in the course of determining whether a permit or approval will be issued by said Administrator or otherwise in the course of administering and enforcing this Ordinance are appealable to the Board of Adjustment as administrative appeals.

b. Decisions by the Planning and Zoning Committee which consist of interpretations of the terms of the Jefferson County land use ordinances and which are made in the course of determining whether a permit or approval will be issued by said committee are appealable to the Board of Adjustment as administrative appeals.

**2. Procedures for Initiating an Administrative Appeal.**

a. Eligible appellants: Administrative appeals may be initiated by any person aggrieved by the decision or interpretation being appealed, or by any officer, department, board or committee of the County government unless otherwise provided by law. [Ord. No. 2018-13, 08/13/2018]

b. Time for appeals: An appeal shall be commenced by an aggrieved party within 30 days of the date of publication of such action pursuant to Sec. 11.15, or if no publication is required, an appeal shall be commenced within 30 days after the making of the decision being appealed. [Ord. No. 2018-13, 08/13/2018]

c. Initiating an appeal: An appeal shall be commenced by filing with the office of the Zoning Administrator a notice of appeal specifying the decision being appealed and the grounds for the requested relief and payment of the fee specified by Section 11.13. Upon receipt of such a notice, the Zoning Administrator shall immediately notify the Board of Adjustment and the Planning and Zoning Committee and shall transmit to the Board all papers and files which constitute the record of the decision being appealed. [Ord. No. 2018-13, 08/13/2018]

d. Stays: An appeal of a decision to issue a permit or approval or to issue an enforcement demand or to commence other ordinance enforcement proceedings shall cause the permit or approval action to be suspended or shall stay further enforcement prosecution unless the Zoning Administrator or District Attorney shall file with the Board of Adjustment a certificate, supported by a statement of facts, alleging that suspension or stay will cause imminent peril to life or property. If such a certificate is filed, proceedings shall not be stayed except upon a restraining order issued by a court.

e. Decisions by the Board of Adjustment: Following a public hearing and other investigation, the Board shall decide the matter based upon whether the decision, determination or interpretation being appealed was in error. The Board may reverse or affirm, wholly or partly, or may modify the decision appealed from, and may make such decision as ought to have been made, and to that end shall have all powers of the officer from whom the appeal is taken. All decisions by the Board on administrative appeals shall be based upon the terms of the Ordinance and evidence as to legislative intent.

**(f) Powers of the Zoning Board of Adjustment: Variances.**

1. Nature of Variances: Variances are waivers in the terms of the zoning ordinances. In a variance case, the terms of the ordinance are not in dispute. An applicant for a variance acknowledges that the ordinance forbids the use or development for which approval is sought. In that case, an applicant may seek a variance which will be granted only in unique circumstances. Area variances and use variances are an available form of relief if the standards in section 3, below are met. [Ord. No. 2018-13, 08/13/2018]

2. Applications for Variances: Applications for variances in the applicable zoning regulations may be filed with the Zoning Administrator, along with payment of the application fee specified in Section 11.13. A completed application shall be submitted including, but not limited to, an application, plot plan, narrative of the request, fee and Town recommendation if the Town provides a recommendation after notification of the variance application. The Administrator shall transmit the application to the Board. [Ord. No. 2018-13, 08/13/2018]

3. Board of Adjustment Review and Decision: Following a public hearing and other investigations, the Board shall decide the matter based upon the following standards: [Ord. No. 2018-13, 08/13/2018]

a. No variance may be granted which would have the effect of allowing a use of land or property which would violate state laws or administrative rules. [Ord. No. 2018-13, 08/13/2018]

b. Subject to the above limitations, variances may be granted where strict enforcement of the terms of the ordinance results in an unnecessary hardship and where a variance in the standards will allow the spirit of the ordinance to be observed, substantial justice to be accomplished and the public interest not violated. [Ord. No. 2018-13, 08/13/2018]

c. A variance may be granted when a variance from the terms of this ordinance will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship, and so that the spirit of the ordinance shall be observed and substantial justice done. [Ord. No. 2018-13, 08/13/2018]

d. A property owner bears the burden of proving "unnecessary hardship," as that term is used in this paragraph, for an area variance, by demonstrating that strict compliance with a zoning ordinance would unreasonably prevent the property owner from using the property owner's property for a permitted purpose or would render conformity with the zoning ordinance unnecessarily burdensome or, for a use variance, by demonstrating that strict compliance with the zoning ordinance would leave the property owner with no reasonable use of the property in the absence of a variance. In all circumstances, a property owner bears the burden of proving that the unnecessary hardship is based on conditions unique to the property, rather than considerations personal to the property owner, and that the unnecessary hardship was not created by the property owner. [Ord. No. 2018-13, 08/13/2018]

4. Conditions: Conditions shall be attached in writing to all approved variances where such conditions will achieve compliance with the standards of this ordinance.

5. A variance granted under this section runs with the land. [Ord. No. 2018-13, 08/13/2018]

#### **11.12 AMENDMENTS.**

The County Board of Supervisors of Jefferson County, Wisconsin, may from time to time alter, supplement or change the boundaries and regulations contained in this Ordinance in the manner provided by Section 59.69, Wisconsin Statutes.
