**8. Monthly Financial Report for Land Information Office – Andy Erdman**

Erdman explained his report and noted that revenues are down approximately \$3,000 from this point last year. Continued lack of revenues may delay the planned \$40,000 server replacement. He also reported that the County Surveyor has been busy working with the Highway Department on CTHs W, M and J. Motion by Reese, seconded by Rinard to approve the report as presented. Motion carried on a voice vote with no objection.

**9. Discussion and Possible Action on Wisconsin Aerial Orthophotography Consortium (WROC) Proposal for Spring of 2015 Aerial Photography Project, and the Vendor Selection Process**

Erdman explained the quality-based selection process. The consortium had three vendor respondents: Aerometric in conjunction with Ayres and Associates was finally chosen at a cost of \$102 per square mile for 583 square miles. He explained that our ordinance requires us, unless it's waived, to a bidding process, an RFP, for anything over \$25,000. He asked whether the Committee wanted to go with the consortium or go out on a competitive bidding process to see if we can save some money. He explained the potential initial savings, but also noted the additional work involved for staff and for the Committee. Erdman will gather information from other counties that went out on bids, including staff time involved and come back to a future meeting.

**10. Andy Erdman, Rob Klotz Discussion and Possible Action on Public Records Availability Online, Including Surveys and Permits et al from LIO and Zoning Departments**

Klotz explained. Twenty counties responded to Michelle Staff's inquiry; three counties are making this information available currently, but more are likely working toward that end. Erdman noted that an open records request cannot be redacted, but information made available on the internet can be redacted as the office sees fit. The Committee would like further information from Corporation Counsel.

**11. Monthly Financial Report for Zoning – Rob Klotz**

Staff reported that revenues are behind for the month compared to this time last year, but pointed out that they are ahead for the year as compared to 2013.

**12. Discussion Regarding Irrigation Spraying of Manure**

Klotz explained and noted that this process is not conducive for cattle manure, but is more applicable to pig manure. He noted that some counties currently dealing with the issue have concerns because of the distance to bedrock. Both Klotz and Watkins went on to explain further. Watkins also noted that there is no language at this point to address such a situation in the county's manure storage ordinance.
