

Human Services Board Agenda - Jefferson County
Jefferson County Courthouse, 311 S Center Ave, Room 205
Jefferson, WI 53549

Date: Tuesday, May 10, 2022, **Time:** 8:30 a.m.

Topic: Human Services Board Meeting

Join Zoom Meeting

<https://zoom.us/j/94280034464?pwd=dkZGanZ1TFNTV1M0QlhpVGpzS2JnZz09>

Meeting ID: 942 8003 4464

Passcode: 750434

+13126266799 US (Chicago)

Committee Members:

Jones, Dick (Chair)
Kutz, Russell (Vice Chair)
Racanelli, Gino (Secretary)
Nsibirwa, Sira

Wineke, Michael
Lund, Kirk
Mirk, Alice

1. Call to Order
2. Roll Call (Establish a Quorum)
3. Certification of Compliance with the Open Meetings Law
4. Review of the May 10, 2022, Agenda
5. Elections of Board Officers - Chair and Vice Chair
6. Public Comment *(Members of the public who wish to address the Board on specific agenda items must register their request at this time.)*
7. Approval of April 12, 2022, Board Minutes
8. Communications
9. Review and Discussion on New Agenda Format
10. Review of the March 2022 Financial Statement
11. Discuss and Approve April 2022 Vouchers
12. Presentation and Discussion on Mental Health Services
13. Discussion and Possible Action on New 2022 Professional Service Contracts *(Child Alt Care, Respite Care, Counseling and Therapeutic Services and Protective Placement/Respite)*
14. Discussion and Possible Action of appointment of Carol Battenberg to Nutrition Project Council for Second Term
15. Discussion and Possible Action of appointment of Alice Mirk to the Aging & Disability Resource Center
16. Questions and Answers on the Human Services 2021 Annual Report
17. Discuss Potential Agenda Items for the June Board Meeting and Public Hearing
18. Director's Report
19. Adjourn

Next Scheduled Meetings:

Tuesday, June 14, 2022, at 4:00 p.m.

Tuesday, July 12, 2022, at 8:30 a.m.

A Quorum of any Jefferson County Committee, Board, Commission, or other body, including the Jefferson County Board of Supervisors, may be present at this meeting.

Special Needs Request - Individuals requiring special accommodations for attendance at the meeting should contact the County Administrator 24 hours before the meeting at 920-674-7101 so appropriate arrangements can be made.

County Board Supervisors attending meetings remotely shall have the same rights and privileges as they would have when appearing in person. The official meeting will be convened at the location on the meeting agenda. If appearing remotely, it is the responsibility of the member to maintain audio and video connectivity with the official meeting site. If connectivity is lost, but the physical location of the meeting maintains a quorum, the meeting may continue in the discretion of the chair. Members attending remotely must be able to be heard, and when video is available to the member attending remotely, seen by Committee members and public who are present at the physical location of the meeting. Loss of connectivity will result in the member being considered absent from that portion of the meeting after connectivity is lost.

JEFFERSON COUNTY HUMAN SERVICES

Board Minutes

April 12, 2022

Board Members Present in Person: Richard Jones, Michael Wineke, and Gino Racanelli

Board Members Present via Zoom: Richard Jones, Russell Kutz, Sira Nsibirwa, and Alice Mirk

Others Present: Director Kathi Cauley; Deputy Director Brent Ruehlow; Administrative Services Division Manager Brian Bellford; Economic Support Manager Jessica Schultze; Aging & Disability Resource Division Manager ReBecca Schmidt; Administrator Ben Wehmeier; and Office Manager Kelly Witucki

1. CALL TO ORDER

Mr. Jones called the meeting to order at 8:30 a.m.

2. ROLL CALL/ESTABLISHMENT OF QUORUM

Lund absent/Quorum was established.

3. CERTIFICATION OF COMPLIANCE WITH THE OPEN MEETINGS LAW

Ms. Cauley certified that we are in compliance.

4. REVIEW OF THE APRIL 12, 2022, AGENDA

Mr. Jones moved Agenda item #12 to be after Agenda item #7

5. PUBLIC COMMENTS

No Comments

6. APPROVAL OF THE APRIL 12, 2022, BOARD MINUTES

Mr. Wineke made a motion to approve the April 12, 2022, board minutes.

Mr. Nsibirwa seconded.

Motion passed unanimously.

7. COMMUNICATIONS

No communications

8. REVIEW OF THE FEBRUARY 2022 FINANCIAL STATEMENT

Mr. Bellford reviewed the February 2022 financial statement (attached) and reported that we are projecting a positive year-end fund balance of \$1,458,864. This balance includes \$1,000,000 from our reserve carryover but excludes any prepaid or other carryover adjustments. This early in the year, most projected are still weighted toward the budget, and very volatile.

9. REVIEW AND APPROVE MARCH 2022 VOUCHERS

Mr. Bellford reviewed the summary sheet of vouchers totaling \$557,735.22 (attached).

Ms. Kirk made a motion to approve the February 2022 vouchers totaling \$557,735.22.

Mr. Racanelli seconded.

Motion passed unanimously.

10. DIVISION UPDATES: ECONOMIC SUPPORT, AGING & DISABILITY RESOURCE CENTER, CHILD AND FAMILY, BEHAVIORAL HEALTH, AND ADMINISTRATION

Economic Support:

Ms. Schultze reported on the following items:

- 95% of applications are required to be processed timely, and the Southern Consortium is processing 99.25% of applications timely. The percentage rate of 99.38%.

- Jefferson County constitutes 18% of the consortium. In 2021 the consortium was offered 97,422 calls and answered 95,654 calls. Jefferson County took 16.94% (16,203 for the year, which is an average of 1,350 calls per month).
- Currently we are not receiving monthly call center statistics with the new Genesys call center system, and we will not be receiving them until farther notice. The Genesys system can run reports, but it doesn't correctly filter the calls (for example, calls transferred from one queue to another, like the general queue to the bilingual queue, count as dropped calls and cannot be filtered out at this time). They are working on this, but do not have an anticipated date for which this will be working correctly.
- Jefferson County Child Care Team received 100% (zero errors) on their Targeted Case Review (TCR) for the first quarter in 2022.
- MiLES (Milwaukee Enrollment Services) offered overtime to all the consortiums in the state to help with overflow and overdue wage matches for their county. Southern Consortium processed 3,000 wage matches in approximately 3 weeks for MiLES.
- We have scheduled in May a Consortium-wide training on de-escalation to "gear up" for the anticipated calls regarding loss of benefits when the unwinding begins. We have also been working with the consortium trainer to review all the program requirements for FoodShare & Healthcare programs. They will review the processes over the next couple of months to ensure correct processing of benefits when all COVID rules/exceptions are discontinued at the beginning of the 12 month unwinding period.

ADRC:

Ms. Schmidt reported on the following items:

- All KOI's are being met or are making good progress towards our long term goals.
- **ADRC:**
 - We are still in the interviewing process to hire for the new ARDC Specialist position.
 - The ADRC has been busy with almost 800 calls.
 - Our ADRC specialists provided 33 customers enrollment counseling in March, compared to 27 last year. This was a new Jefferson County ADRC record. I believe this is a direct reflection of the senior population growth we have been watching as a large percentage of the clients we are seeing are seniors.
- **Senior Dining:**
 - We continue to have a demand for Home Delivered Meals. In 2019, we were receiving between 2-8 new Home Delivered Meals (HDM) referrals each month. In 2022, we are receiving between 10-17 new referrals each month.
 - On 4/1/22 we reopened congregate meal sites in Fort Atkinson and Watertown. We had twelve people join us for this reopening event.
- **Transportation:**
 - We are maintaining the number of rides in March with 826 rides being provided.
 - We have rented a wheelchair accessible van to utilize until we receive our two grant approved wheelchair vans from DOT. This is very helpful as we are seeing an increase in requests for wheelchair transport.
 - The bus has been wrapped with a new blue and white ADRC logo that includes our contact information.
 - There has been a lot of interest in our shopping trips that are being offered four days per week between towns along the Hwy 26 corridor.

- **Adult Protective Services:**

- Lots of great work has been done over the past few months to take a fresh look at how our processes, policies, and documentation all function in APS.
- We have developed a new process for handling court related fees surrounding guardianships and protective placements.
- We have been completing new trainings in-house as well as out in the community, through our I-Team and Dementia Support Groups in March.
- As of Monday, we had about 200 open cases (give or take a few on any given day) being following and/or worked on through our APS department. About 140 of those are protective placement cases that remain open, and we follow up on regularly. The other 60 cases are in some stage of investigation, short term case management, or follow up.
- The team works hard to ensure the health and safety and independence of our most vulnerable community members.

Child & Family:

Mr. Ruehlow reported on the following items:

Key outcome indicators are being met.

- We currently have two openings on our Ongoing CPS team and hope to make an offer today.
- We currently have two openings on our Intake team. We have three individuals coming back for second interviews.
- We currently have one youth who came home from a residential treatment center. There is another youth transitioning from a residential treatment center into a group home.
- For the month of March, we had seven kids from our CPS Department find permanency.

Behavioral Health:

Ms. Cauley reported on the following items:

Key outcome indicators are being met.

- Through March we have had 3,934 EMH contacts.
- In March we had 6 emergency detentions. Our diversion rate is 84%.
- In our EMH Department we have a new position that will be located at the Watertown Police Department.
- In our outpatient clinic we currently have two openings for Psychotherapists.
- Our nurse prescriber that was hired in December for three days a week has been recruited by Waukesha and will be leaving.
- In our CCS Department we currently have seven vacant positions. Five of those openings are for service facilitators and two are for CCS administrative assistants.
- We have contracted with PSG to help in CCS. They have hired one service facilitator to work with children. Currently in CCS we have 120 referrals.
- In our CSP Department we have one vacant position for a CSP professional.
- We have several audits being conducted currently
 - CCS is being audited by the Inspector General's Office.
 - Our outpatient clinic is being audited by Anthem.
 - CSP is being audited by Inlusa.
- Federal Legislation adopted a new rule to establish 988 as the three-digit calling code for a National Suicide Prevention and Mental Health Crisis hotline. This will go into effect July 1st.

- Ms. Cauley and Ms. Propp met with Pam from Jefferson County Daily Union yesterday. Pam is interested in creating a series that will go into depth regarding the trends in mental health and substance abuse, along with the services that are available to individuals in need.

Administration:

Mr. Bellford reported on the following items:

- Capital Projects:
 - Maas Brothers is coordinating several capital projects, which include the ceiling work at the main building, HVAC at WFDC, bathroom remodels, lighting upgrades, and cement work out front.
 - The flooring project at WFDC will start at the end of April. At this point we don't have a date set for the flooring at the main building and we are currently working on collecting estimates for the flooring in the Aging and Disability Resource Center.
- The Children's COOP and Birth to Three fiscal reports have recently been completed and turned in.
- Next month we will be presenting the 2021 Annual Report.
- We currently have two vacant Administrative Assistant I positions for our front desk staff.
- Our Protective Payee has retired. We had an internal staff member accept that position.
- We currently have a vacancy in our Fiscal Department for our part time Accounting Assistant.

11. DISCUSSION AND POSSIBLE ACTION ON THE 2022 PROFESSIONAL SERVICE CONTRACTS (IVE-E LEGAL/JET, CHILD ALT CARE, RESPITE CARE, AND COUNSELING AND THERAPEUTIC SERVICES)

Ms. Cauley reported that we have ten new service providers. (attached)

Mr. Kutz made a motion to approve the contracts as listed.

Ms. Mirk seconded.

Motion passed unanimously.

12. DISCUSS AND REVIEW CHILD ABUSE PREVENTION ACTIVITIES AND CHILD PROTECTIVE SERVICES ANNUAL REPORT

Child Protective Services (CPS) Case Manager, Jenny Witt presented to the board the upcoming Child Abuse Prevention activities that will be happening throughout the month of April to raise money for the Child Abuse Prevention (CAP) fund. Those funds are used to assist children and families in meeting needs to support safety and well-being.

Mr. Ruehlw gave a brief overview of the Child and Family section of the 2021 annual report.

13. DIRECTOR'S REPORT

Ms. Cauley reported on the following items:

- Ms. Cauley continues to work with WCHSA on funding Crisis and CSP services.
- Our Employee Luncheon will be held on June 22.
- May is Mental Health Month.
- At the WCHSA meeting last week they did discuss how Lincoln Hills is seeing a 40% increase in the amount of youth that are being placed at their facility.

14. ADJOURN

Mr. Racanelli made a motion to adjourn the meeting.

Mr. Wineke seconded.

Motion passed unanimously.

Meeting adjourned at 10:15 a.m.

Minutes prepared by:

Kelly Witucki
Office Manager
Human Services

NEXT BOARD MEETING

Tuesday, May 10, 2022, at 8:30 a.m.

Jefferson County Courthouse County Board Room 205

311 S Center Ave, Jefferson, WI 53549

DRAFT

Financial Statement Summary

March, 2022

We are projecting a positive year-end fund balance of \$1,783,845. This balance includes \$1,00,000 from our reserve carryover but excludes any prepaid or other carryover adjustments. This early in the year, most projected are still weighted toward the budget, and very volatile.

Summary of Variances:

Revenue: Overall, revenues are projected to be unfavorable by \$1,660,796.

- CCS revenues are projected to be under budget by \$899,364. Because of unfilled positions, we are projecting \$3,167,581 in CCS revenue from MA, while our 2021 budget was \$4,066,945. As positions are filled, expenses and revenue will increase. Expenses for CCS are currently projected to be under budget by \$767,411. We are projecting limited CCS WIMCR revenue this year, as we had a CCS payback last year.
- CSP revenue is also projected to be under budget by \$98,340, because of vacant positions.
- The ADRC has also seen turnover and vacancies, leading to decreased revenue and expense projections. Currently, ADRC revenue is projected to be under budget by \$100,734.
- At this point, we are not projecting revenue from the Congregate Site meals. Two Congregate Sites opened back up in April 2022, so future projections will include some revenue to offset those costs. The Site Meal revenue is offset by increased Home Delivered Meal revenue. The current projection shows Site Meal revenue under budget by \$132,000, while the Home Delivered Meal revenue is over budget by \$104,755
- CLTS revenue is projected to be over budget by \$431,857. This is consistent with expenses and the trend we have seen of rising costs and revenue.
- MA revenue from hospitalizations is also projected to be under budget by \$182,070.
- We did budget for revenue from DCF to offset subsidized guardianship costs. DCF is working through that process to begin reimbursing counties for those costs. We are currently projecting \$72,553 in costs, which would now have revenue to offset them.

Expenditures: Overall, expenses are projected to be favorable by \$3,444,641.

- **Salary expenses are projected to be under budget by \$1,807,265:** This is because of numerous vacant or unfilled positions. The table below summarizes the key differences at this point.

Team	YTD	Year End Projection	2022 Budget	Year End Variance
Behavioral Health	561,675	2,232,261	2,840,627	(608,366)
Childrens & Families	527,956	2,111,824	2,205,720	(93,896)
Community Support	244,504	978,018	1,192,495	(214,477)
Comp Comm Services	469,854	1,879,416	2,303,035	(423,619)
Economic Support	326,007	1,304,026	1,369,210	(65,184)
Aging & Disability Res Center	127,471	502,413	602,036	(99,624)
Aging/Transportation Programs	158,487	633,946	616,834	17,112
Childrens L/T Support	180,146	720,584	791,935	(71,350)
Early Intervention	85,768	343,073	350,495	(7,421)
Management/Overhead	294,016	1,176,063	1,345,619	(169,556)
Lueder Haus	71,575	286,301	363,216	(76,916)
Safe & Stable Families	20,789	83,157	77,126	6,031
Total Wages	3,068,248	12,251,083	14,058,348	(1,807,265)

Many of the teams with variances have revenue offsets that are discussed above. We have had significant turnovers and vacancies on numerous teams including the Behavioral Health Clinic, CPS, SDP, CCS, Economic Support, ADRC, and Mgmt/Admin.

- **Fringes and benefit expenses are projected to be under budget by \$530,190.**
- **Children Alternate Care expenses are projected to be under budget by \$554,243.** This projection includes Shelter and Detention costs. It also includes placements at the Central Wisconsin Center, which we budgeted through carryover. As shown on the Alternate Care summary, we do have several RCC placements at this time.
- **Hospital/Detox is projected to be over budget (unfavorable) by \$110,120 (Net basis):**

	Budget	Actual	Projection
Revenue	\$400,000	\$54,483	\$217,930
Expenditures	\$1,230,000	\$289,513	\$1,158,051
Net	\$(830,000)	\$(235,030)	\$(940,120)

The March 2022 State Institute bill was \$97,383. The February bill was \$85,683.

Additionally, we have placements at the Central Wisconsin Center. These costs were budgeted via our carryover. The February and March bills were \$11,879 and \$17,563, respectively.

- **CLTS expenses are projected to be over budget by \$290,444:** This is consistent with the trend of increased services. We do anticipate these costs will increase, as new 2022 positions are filled. There is always uncertainty at this point, related to the number of waiver kids that will be served.
- **Children's COP expenses are projected to be over budget \$89,464.** This includes both our CLTS MOE and our recreational purchases.

- **HDM Nutrition Expenses are projected to be over budget by \$160,627.** This projection includes meal cost, staff salaries, and other program expenses. This is offset, in part, by Congregate Meals, which are projected to under budget by \$134,479. These numbers are very uncertain at this point, as we just opened two Meal Sites, and we expect the projections to change significantly.
- **Costs related to the HOPE (housing) program are projected to be over budget by \$153,058,** as the need for housing services had expanded exponentially.
- **Operating Reserve:** We are projecting a year-end balance of \$1,000,000 in the operating reserve this year.

BEHAVIOR HEALTH DIVISION: Projected unfavorable balance of \$97,367. While revenue is down across most programs, so are expenses. WIMCR revenue is still uncertain and projected to be low at this point. Hospitalization expenses continue to be high.

CHILDREN & FAMILY DIVISION: Projected favorable balance of \$813,365, because of reduced alternate care costs and staffing/positions. CLTS expenses are overbudget at this point, and that is offset by increased revenue projections.

ECONOMIC SUPPORT DIVISION: Projected favorable balance of \$22,896. We did receive an RMS payment of \$29,872 in March 2022.

AGING & ADRC DIVISION: Projected unfavorable balance of \$24,043. Reduced ADRC revenue is offset by reduced costs. The variance is due primarily to increase transportation and meal contracts.

ADMINISTRATIVE DIVISION: Projected unfavorable balance of \$68,994, because of uncertainty related to capital and IT projects.

OPERATING RESERVE: Projected favorable balance of \$1,000,000.

Statements are unaudited.

JEFFERSON COUNTY HUMAN SERVICES DEPARTMENT

Jefferson County Mental Health Crisis Line truly a 'lifeline' for those in distress

- By Pam Chickering Wilson Adams Publishing Group

This image was drawn by a child at a previous Hope Fest in Jefferson which highlighted the issue of mental health; the two-sided paper "Candle of Hope" lantern read "Fight Mental Illness" on the other side.
Pam Chickering Wilson

JEFFERSON — Suicide numbers themselves have not climbed during the pandemic, but calls to Jefferson County's mental health crisis line have, especially among youth.

Overall, the county fielded 235 calls in 2020 and 277 calls in 2021 from people who were contemplating suicide. The biggest jump in crisis calls relates to youth.

In 2020, the county took 48 calls related to youth contemplating suicide, with those affected ranging in age from 12 to 17.

In 2021, that number jumped to 70 youth suicide calls, with the youngest youth assessed for suicide risk being only 7 years old.

While it is sad that so many people are finding themselves in crisis during the upheaval of the pandemic and other disruptions in daily life that have followed, the county's 24-hour-a-day, 365-day-a-year crisis line has played a crucial role during that time in saving lives and connecting people to needed resources.

Kathi Cauley, director of Jefferson County Human Services, said that the area is seeing a distinct increase in rates of depression and anxiety. This follows the trend across the U.S. and beyond as the pandemic and its far-ranging effects drag on.

The trend has been particularly stark among youth. Youth in general are seeing a spike in depression and anxiety, and although these historically have been more prominent in females, now they're up in males as well.

Kim Propp, crisis services manager for Jefferson County, agreed that it's essential during these times to make every effort to connect people in crisis with needed help.

"Each year when we look at the trends for people who died by suicide, our crisis team has had contact with only a few of these people — sometimes one of them has reached out to us," Propp said. "Sometimes none have. People need to know that help is out there."

"And treatment works," Cauley added. "Most of the people who die by suicide were not in treatment at the time of their death. When people do get help, things get better."

Jefferson County has been a leader in intervention efforts for decades. The county was among the first to send staff members to the Zero Suicide Academy.

This was a prescient move, as mental health crises and suicide calls have been rising around Wisconsin and beyond for the past several years.

In 2011, Cauley said, Jefferson County fielded 5,551 emergency mental health crisis contacts. In 2020, when the pandemic began, that number rose to 17,233.

In 2021, the number of total calls actually fell to 15,482, and so far in 2022 that number has been on level with recent years.

Suicide calls, however, have gone up, Propp said.

Cauley said that when people, their family members or close contacts reach out, the county can help connect those in crisis with appropriate interventions, from therapy to health care to other resources.

But many who end their lives by suicide never have reached out for help.

“No one should die by suicide,” Propp said. “There is help out there.”

Cauley noted that a large portion of those people who have died by suicide in the local area have used guns to end their lives.

“For any of us to take that action, we first have to be comfortable with guns,” she said.

In an area where hunting is a common pastime, there will be more guns, Cauley noted. However, if a person is known to be at risk for suicide, they and their loved ones should “safety plan” around their firearms, as with any dangerous item.

If there's a risk of suicide, guns absolutely should be locked away or taken to a remote location, in someone else's custody temporarily, she said, so that they don't wind up ending someone's life.

"The thing about guns is, they are so fast," Cauley said. "It only takes a moment to end one's life."

Propp noted that human beings have many thousands of thoughts a day, with a little more than half of those thoughts being fully consciously recognized.

These fleeting thoughts reflect a moment in time. Given time to reflect, many people who had felt suicidal back down from that precipice, but a bullet can take that choice away before they've had that chance to rethink or re-frame those distressing thoughts.

Most suicide attempts actually do not result in death, but even those attempts can cause permanent damage.

Another factor that can increase people's risk of death by suicide is alcohol or other drug use.

Wisconsin has the unfortunate distinction of being one of the biggest problem drinking regions in the United States, with almost every part of the state falling under the highest risk level.

The combination of heavy drinking and mental/emotional issues causes a lot of problems.

Mental health efforts in the area

Since 2014, Jefferson County has staffed a 24/7, 365-day-a-year mental health crisis line, with local mental health specialists standing by ready to take calls whenever a crisis arises.

“Anyone who lives in Jefferson County is welcome to come here to access our services,” Cauley said.

In an emergency situation, callers can get same-day (within 24 hours) access to outpatient clinics in the area.

In addition, Jefferson County has a crisis worker embedded with the Fort Atkinson Police Department two days a week, and the Watertown Police Department is in the process of recruiting a full-time crisis worker, with support from the Greater Watertown Community Health Foundation.

Cauley noted that these communities were target areas because 25 percent of the mental health calls that come in to the county come from Fort Atkinson and another 25 percent from Watertown. The rest of the calls are spread out in the smaller communities and throughout the countryside.

DBT and CBT

Starting last fall, the Jefferson County Human Services Department worked with local school districts to provide mental health therapists in every district to provide social/emotional programming and to help young people via DBT (dialectical behavior therapy).

DBT is an evidence-based, research-backed treatment for suicid-ality.

The county has sent representatives for training to help implement this in the local schools.

DBT includes a whole arsenal of techniques which help people to maintain their well-being, better manage their emotions, better tolerate stress and distress, and engage in mindfulness.

“It provides extremely helpful coping skills,” Cauley said. “When we started doing this, there were some real skeptics in the schools who have since become believers because they have seen it work.

“The kids really like it too,” she added.

DBT is related to Cognitive Behavioral therapy, which is a broader term for therapies that share common characteristics.

DBT is a type of CBT, talk therapy that treats emotional response, is limited to a specific period of time, that relies on cognition and rationale, that makes use of structure, and that requires a good patient-therapist relationship.

It helps guide people to healthier emotional responses based on the idea that our thoughts influence our feelings, so changing the way we think about and react to situations will help us feel better.

It’s intended for a limited time, with the idea that patients will seek treatment for a time and then will learn to utilize these strategies on their own without significant support from a mental health professional.

The therapy encourages patients to apply logic and reason to help direct how they respond to situations instead of letting emotions drive their actions.

CBT works best when the patient feels like they can trust their therapist. Because of the personal nature of therapy, patients should seek out someone they respect and feel comfortable with.

Therapists use the client’s goals to figure out which CBT concepts will be most beneficial to them and tailor strategies accordingly.

DBT as a treatment is robust, Cauley said. It includes individual therapy that teaches a wide range of therapeutic interventions; skills such as mindfulness,

distress tolerance, emotional regulation and interpersonal effectiveness; family therapy if the patient is a child, and a consultation group to help the therapists remain healthy as they help others.

While DBT is a type of CBT, it is tailored toward helping people acknowledge the pain and discomfort they feel, while feeling safe in the moment and empowered to choose healthy behaviors instead of impulsive or harmful actions.

“We accept that they’re doing the best that they can, but that they can still do some things differently to improve outcomes,” Cauley said.

Patients are taught to identify triggers outside of themselves and match those triggers with a healthy coping mechanism or response.

“The first skill we teach is that the human brain is capable of all sorts of things,” Propp said.

She contrasted the emotional mind, which can get fired up and angry, impeding progress with the rational brain, which deals with administrative duties, problem solving and facts.

“The wise mind integrates both,” Propp said. “It works best when we’re able to observe what we’re thinking and what we’re feeling.”

People engaged in DBT learn numerous skills which can guide them to emotional calm and clearer thinking.

For example, researchers have found that various activities can help a person switch from the sympathetic “fight or flight” nervous response to a parasympathetic one.

These activities, targeting the vagus nerve, can be as simple as splashing cold water on one’s face, taking a cold shower or putting an ice pack on one’s forehead.

Intensive exercise and paced breathing also can help place people in a better frame of mind.

“When I am using my DBT skills, Kim will tell you I’m a much better person,” Cauley said.

Adding staff and training

The county also has helped to bring crisis intervention skills training to area law enforcement departments, including almost all of Fort Atkinson and Watertown officers.

In addition, the county human services department has added people to its own mental health teams.

The Emergency Mental Health Crisis team fields emergency calls.

The county’s outpatient clinics provide therapy for mental health and substance use concerns.

More intensive services are provided through Comprehensive Community Services, which has three different teams to help children and adolescents, adults and families.

CCS provides individual and group psychotherapy, mentoring and employment coaching, and helps connect people to other needed services.

CCS has grown over the years. In 2012, there only were six positions in this program, and now there are more than 40.

“We have five open positions right now,” Cauley said. “If these were filled, we could serve another 60 people in the community.”

There's also a community support program for people with severe, persistent mental illness such as bipolar disorder or schizophrenia.

"This is similar to CCS but provides a higher level of care, including psychotherapy, symptom management, medicine management and employment services," Cauley said.

The human services officials noted that the county has crisis staff personnel who follow up with individuals after the immediate crisis, and they also will make an effort to maintain caring contacts for some time to make sure folks are okay and that they know they can call again if they are in need.

"It's amazing the number of people who write back to say what a difference we've made," Cauley said.

Lessons

All of these services continued straight through the pandemic, though sometimes they switched to a virtual format on a temporary basis.

"People recognize how much law enforcement, teachers and nurses have done during the pandemic, and rightly so," Cauley said. "Our professionals in human services have been right there alongside them, even when every service we provided had to be transformed to meet people's needs."

On top of regular therapists, social workers and specialists, Jefferson County Human Services can connect people to peer support specialists — that is people with lived experiences of mental illness and/or suicidality.

"If someone wants to talk things over with someone who has lived through it, we can put them in touch," Cauley said.

Supporting Our Youngest Community Members: Resilient Families, Early Life Skills

Community Response Program Steps in with Timely, Targeted Support

The Problem: Families at risk of abuse

and neglect In 2018, the data was impossible to look away from. In Dodge and Jefferson Counties, Child Protective Services (CPS) intervened in 542 child maltreatment cases, a 30% increase over the previous 3 years. To drive change, we needed to understand *why* and *how could it be prevented?* And then intervene in a meaningful way.

The Solution: GWCHF invested \$568,750

from September 2018 to September 2021 in the Community Response Program

The Community Response Program provides connections to services, case management and skill building for parents and caregivers, focusing on evidence-based factors that foster positive parenting and protect against abuse and neglect.

The Results: 387 families reached before crisis in Dodge and Jefferson Counties, representing more than 750 children "We are thrilled to offer these earlier intervention and prevention services," says Kathi Cauley, Director of Jefferson County Human Services. "We have received positive feedback from participants. We hope to expand the program even further."

Read the full article about the independent program evaluation conducted by The Institute for Child and Family Well-Being, part of the Helen Bader School of Social Welfare at UW-Milwaukee.

Pyramid Model Instills Pre-K Life Skills

Strong life skills are key building blocks for success. Employers may call them “soft skills,” and say they’re in serious decline. Research backs that up... all the way to preschool! In our region, only 61% of kindergarten students were developmentally ready with these vital skills (based on the Ages and Stages screening tool).

Investment: \$350,000 over 3 years to implement the Pyramid Model in early childhood care centers

“It has been amazing to partner with the team members at FASA and Willows over the past two and a half years and work alongside their leadership teams to support and celebrate as they build Pyramid Model practices to fidelity,” says Jill Van Sickle, Early Childhood Learning Innovation Coach. “It is incredible to see, hear and feel the cohesiveness of staff and children in their center-based early care programs.”

Initial results over the first three years include:

How much? A total of 182 children are being served across seven participating sites.

How well? The percentage of Benchmarks of Quality (BOQ) achieved overall, by all participating sites has steadily increased to 59%.

Is anyone better off? The long term goal of this investment is to improve developmental readiness for school, as measured by the Ages and Stages developmental screening tool. In 2021, 53% of 4-year olds in pyramid model classrooms were meeting all recommended developmental milestones.

Community Survey (Please help spread the word!)

The **TalkReadPlay** movement, facilitated by the Greater Watertown Community Health Foundation and its **Every Child Thrives** partners, is focused on strengthening families by promoting quality, positive interactions between parents/caregivers and their young children. We are seeking data to know how we are doing so we can set targets for the future.

Please help us collect information from community members through a short online survey. This survey will help us understand awareness of the importance of early learning, how much families are currently engaging with their young children, and knowledge of **TalkReadPlay**.

The **TalkReadPlay** Community Survey will take about 5 minutes to complete. All participants have the opportunity to be entered into a gift card drawing for participating. Answers will be used to help our network of partners plan for the future.

Please help spread the word in our community by sharing the post on our [Facebook page](#).

Here is a recommendation for your Facebook post share:

- (Your organization name) is a proud partner of **TalkReadPlay**, an effort that supports young children and families in our community. Please take this short survey to help us understand community awareness on the importance of early learning, how much families are currently engaging with their young children, and knowledge of **TalkReadPlay**.

Thank you for your assistance in helping us to collect information from our community!

Triple P Parenting Program Creates Success for Families

Triple P is an evidence-based parenting education program that teaches families how to spend less time battling misbehavior and more time building close relationships with their children. Participating parents and caregivers develop skills to manage stress and encourage healthy habits, which create more positive days for their families and a brighter future for their children.

The Greater Watertown Community Health Foundation has provided facilitation and support to 14 agencies to become trained to deliver Triple P programs throughout Dodge and Jefferson counties. Amber Schraufnagel with Mayville Open Door, has taken an innovative approach to delivering Triple P. She designed a 9-month journey for the Moms Unite Group, a cohort of moms who gather monthly at the Open Door Coffeehouse to learn about and discuss Triple P strategies as a group. The moms also have the opportunity to meet with Amber to get one-on-one parenting support based on their family's unique needs.

With take-home tools like Triple P parenting guides and tip sheets, participating moms have shared learnings with their partners, who have also become engaged as they experience the positive changes the program has offered their families.

Learn more about Triple P at Open Door Mayville in this [feature video](#).

Grant Announcements

Open Grants Focus on Improving Community Health for All

GWCHF is currently accepting proposals for four open grant cycles.

Changemaker Grants provide support for agencies working to improve health equity for those they serve, while focusing on the social determinants of health.

Capacity Building Grants are for agencies looking to advance their missions by developing leadership skills or strengthening organizational efforts.

Health Equity Spark Grants spark community learning, reflection and dialogue on the topics of equity, diversity and inclusion.

Community Collaboration Grants provide support for partnerships that enhance community spaces where individuals can be active together.

Submitted proposals must directly support the communities served by the school districts of Dodgeland, Hustisford, Ixonia, Jefferson, Johnson Creek, Lake Mills, Waterloo and Watertown.

To date, the Foundation has invested nearly \$13 million in its five strategic, child-focused priorities: Strong Families; Kindergarten Readiness; School Success; Social Emotional Wellbeing; and Healthy Eating/Active Living.
